**LET'S WORK FOR INDUSTRIAL PEACE**

**Men want work. Management wants to produce. The public wants to buy. The country wants prosperity. Yet good times have been held up by an agony of strikes. Strikes breed bitterness... hunger... and economic stagnation. For the sake of our country, let's change that! Change it fast. Time is running out!**

**Let's work out a way to get - and keep - industrial peace and prosperity.**

**THE FIRST STEP**  
 Isn't a sound national labor policy... one that treats workers and management exactly alike and above all one that is fair to the public... the first step toward that peace?

Sincerely believing this to be so, we offer this program for peace and production and prosperity:

**FREE! A timely, unexpensive booklet entitled "The Public and Industrial Peace" gives full details of this program, including specific legislation. It is a useful handbook for every citizen, program champion, or group leader. A powerful booklet. An address: National Association of Manufacturers, 14 West 60th Street, New York 20, N. Y.**
