BIBLE THOUGHT
 THURSDAY, MAY 2, 1946

Every good gift and every perfect gift is from above, and cometh down from the Father of lights, with whom is no variableness, nor shadow of turning. James 1:17

What Other Editors Say...

OUR GUESS ABOUT THE OPA
 Members of the House who voted to strip or kill the OPA last week must have known they were acting in disregard of a majority of the folks back home. Public opinion polls have consistently shown that the people favor the present system of price controls in spite of its many faults.

Therefore it can only be assumed that the congressional committee led by the demagogue against the OPA in the House, employed propaganda with a desire by some to deprive the people of their property. The OPA is not the fault of the Executive, and personal attacks on the members who lead the Senate members, who have the final say in the matter, are hardly that did the House.

Money thought and honest people are tired of OPA control. They think that the only way to end delayed production, military supplies, and a bad distribution of goods is to abolish the OPA.

With that solution we heartily approve. It is our hope that a future in extreme form, would follow the lifting of price controls. If allowed before consumer goods become plentiful—Shelby News.

First National Bank Shows Marked Growth
 For more than 45 years established with this community a financial institution maintaining the highest standards in banking, the First National Bank of Carlisle looks ahead today with optimism of the growth and progress which have marked its progress through the years.

Founded in November, 1903 by the late T. H. Patterson, former prominent resident of Nashville, the bank institution has been a substantial part of the life and affairs of the county from its chartering. Its growth has been steady and healthy. When the bank was established it was capitalized at \$25,000, today has a capital and surplus of \$100,000 and deposits have shown a consistent increase.

W. L. Letts, well-known Nicholas county farmer and president of the bank for more than 25 years, in announcing the disposition of stock made by the bank, said that the bank has provided a bright future for the institution. The change in the bank's ownership has provided a bright future for the institution. The change in the bank's ownership has provided a bright future for the institution.

Derby Again Comes Into Its Own
 On a moment to May all the eyes of the nation will be turned to the Derby and the race of the world's fastest horse. The Derby is the crown jewel of the racing world and the most exciting event of the year. The Derby is the crown jewel of the racing world and the most exciting event of the year.
