Please Read this Notice of Request For Increase in Telephone Rates

Your Telephone Company has found it imperative to file application with the Kentucky Public Service Commission for higher rates for local telephone service and on most long distance calls within the state. This action was taken because telephone earnings are dangerously low and reasonable earnings are required to furnish adequate service. We ask that you read this message carefully so you will understand clearly why increased telephone rates are necessary.

Your telephone rate is low and it is the earnest desire of your Telephone Company to keep it low.

While your rate has remained the same for many years, the total cost of furnishing telephone service has steadily gone up. Since 1939 our expenses for Kentucky operations have increased 118 per cent, while revenue increased only 88 per cent.

Wage Rates Up \$2,162,573

Much of the increase in expenses is represented by wages, since wages make up the greater part of the cost of furnishing telephone service. Wages have been raised in accordance with national policies and the general trend throughout the country. These wage increases were necessary to assure, through competent personnel, the provision of an adequate service. Telephone wage rates in Kentucky have been raised during the past 18 months by \$2,162,573 on an annual basis.

Since the first of this year, 40,000 new telephones have been installed in Kentucky, but 25,000 people are still waiting for telephones. This demand forces us to build new facilities now, in the face of high costs. The cost of erecting buildings has jumped 75 to 100 per cent; the overall cost of providing telephone facilities has advanced 45 to 60 per cent and the cost of telephone materials has increased 15 to 25 per cent. Despite these high costs, we telephone folks—and there are 4,000 of us in Kentucky—must continue to improve service generally, and to expand it. Our plans call for gross expenditures of approximately \$35,000,000 for telephone construction in Kentucky during the next five years.

Pay-Out Is Increasing Faster Than Take-In

With the tremendous increase in the expenses of furnishing telephone service and with rates unchanged for years, we have a difficult time making ends meet. So much so, that today we find ourselves confronted with the lowest earnings in our history in spite of a record volume of business.

No business can long continue to render service when the amount paid out to provide that service is increasing faster than the amount taken in. Therefore, it is our

NO BUSINESS CAN GIVE ADEQUATE SERVICE WITHOUT ADEQUATE EARNINGS

STATEMENT OF POLICY

We, your Nicholas County Automobile Dealers, are making this statement of policy regarding the delivery of new automobiles.

We regret that the production of new cars has fallen far short of anticipation. Automobile Daily News figures show that from January 1 to August 1, 1945, the industry produced 3,608,749 new automobiles as compared to 883,617 in the same period of 1941. In other words, we have received only one new car in 1946 compared to four in 1941.

All automobile dealers have long lists of orders and we pledge to these purchasers that we will make delivery of their new cars in the order they were placed just as nearly as it is humanly possible to do so.

We will deliver all new cars at the established price fixed by the factory and OPA. We will not accept any additional remuneration of any sort.

We will carefully prepare all new cars for delivery, and will maintain the same high quality of service previously provided.

Where a purchaser owned a used car at the time he placed his order or has acquired a used car that will be replaced in service by the new car, we will ask that the used car be traded in when the new car is delivered. We consider that to be fair both to the purchaser and ourselves. We will allow the full legal allowances set up by OPA less deductions where cars are not in serviceable condition, but only to the extent of actual repairs that will be made by us to that car before delivery. We feel that "used cars should" be handled during the present conditions as they were previous to the war period, namely: Through established Licensed Dealers with authorization of OPA.

We respectfully request that you bear with us under very trying conditions, remembering that we are, as always, anxious to deliver every new car possible. Keep your used car for trade in on your new car, and keep it in the best possible condition.

Respectfully,

Nicholas County Infirmary Farm For Sale At Public Auction

State of Kentucky Nicholas County Fiscal Court
Saturday, September 28, 1946.
It is ordered by the Court that the Nicholas County Infirmary Farm located on the Pleasant Springs Pike in Nicholas County, Kentucky, consisting of 141 acres, 2 rods and 30 poles or 141,687.5 acres be sold at public auction on the premises at
10 O'Clock A. M. on
Saturday, October 19, 1946
to the highest and best bidder, the Court reserving the right to remove the barracks recently erected there and also the right to reject any and all bids. Done by order of the Nicholas County Fiscal Court, this 28th day of September, 1946.
(Signed) Walter Shepherd, Judge, Nicholas County Fiscal Court, Ky.
