WARNING
to All Car Owners
IF YOU CAN'T PAY FOR ACCIDENTS YOU MAY LOSE YOUR RIGHT TO DRIVE
The minute you have an automobile accident in which any person is injured or killed, or property damage exceeding $50 occurs, you will come face to face with loss of your driving rights, under the new Kentucky Motorists' Safety-Responsibility Law which takes effect January 1, 1947. This law requires that any driver or owner of a car involved in an accident must show that he has Automobile Liability and Property Damage insurance to cover the damage claims that may result, or he must post security up to $11,000 to pay them.
INABILITY TO MEET THESE REQUIREMENTS WILL BE PENALIZED BY SUSPENSION OF THE DRIVING LICENSE AND CAR REGISTRATIONS HELD BY THE DEFAULTING PARTY.
Under these circumstances it is pretty obvious that unless you have plenty of money and property, and don't care if you lose it, the thing to do is to get Automobile insurance if you want to be sure of keeping your driving rights.
We can furnish such protection for you through the Hartford Accident and Indemnity Company. The Hartford is well known as one of the largest and most reliable Automobile insurance companies and a Hartford policy satisfies all requirements of the new law. Furthermore, Hartford Automobile Insurance rates are moderate.
Let us tell you about Hartford advantages and give you further details about your obligations under the new Kentucky Motorists' Safety-Responsibility Law. We'll be glad to supply this information without obligation.

THIS is the story of a blighted romance. These Swiss sweethearts have come to the parting of the ways. He keeps on climbing UP. She keeps on coming DOWN. Only a while ago they started out together, hand-in-hand.

This is also the story of your cost of living. It has been climbing steadily. Department of Labor statistics show that it has gone up 45.7% since 1939.

But wait a minute! Our figures show that the cost of electricity for the average home has been coming downward. Since 1939—through years of war and shortages, rising prices and higher taxes—the cost of electricity for the domestic user has *decreased* 21%.

Actually, the average family we serve is now getting twice as much electricity for its money as it did 10 to 12 years ago. Never in all history has electricity done so many tasks for such little cost.

Your friends and neighbors in our Company—under sound *business* management—made this possible. Your own increased use helped. And as your use keeps on increasing, we hope to continue this downward trend in the price of electricity.
