Hay and Pasture Good In Bullitt

Milk Breeder of Bullitt county says that the hay crop in that county is the best in the state. The first cutting of 11 acres of timothy hay weighed 45,000 pounds, or over two tons of hay to the acre. It was mowed at the rate of 15 pounds of alfalfa seed and three pounds of clover seed to the acre.

Lambs Finished On Yellow Corn

The annual report of the Kentucky Agricultural Experiment Station gives the following results of a yellow corn and "sweet feed" mixture:

College Advocates More Cover Crops

Cover crops to protect the soil, furnish winter feed and save the soil from erosion are the subjects of a series of lectures given by the University of Kentucky College of Agriculture.

Prospective Students Urged To Apply Now For UK Admission

All Kentucky students wishing to attend the University of Kentucky should apply for admission to the University of Kentucky without delay.

KENTUCKY BUILDS

For Your Future Welfare . . . Here's How—

Today Your dollar buys twice as much dependable K. U. electricity as it bought only 10 or 12 years ago.

During the last 12 years, while Kentucky Utilities Company was bringing the cost of electricity down and down to where you now get twice as much for your money, it was also bringing additional benefits to Kentucky.

Actress Would Insure Her Eyes for Million

Actress Justice Carter applied for a million dollars worth of insurance on her eyes, thereby setting some kind of new high in Hollywood publicity stunts.

Meetings Scheduled For Bankers, Farmers

The third annual series of bankers-farmers meetings will be held in Kentucky in September under the sponsorship of the Kentucky Bankers Association, with the cooperation of the Kentucky Bank and Loan Association and the University of Kentucky College of Agriculture and Home Economics.

Into Kentucky—for its homes and schools, its roads and bridges, its playgrounds, parks and civic functions—we paid:

\$25,294,322 in salaries and wages to employees—and they in turn spent much of it locally.	not counting payroll or regular maintenance.	for Kentucky miners and railway employees.
\$14,216,021 to our owners: Preferred stockholders, 5,731 of whom live in Kentucky, got \$11,253,882; Common stock holders got \$2,962,139.	\$20,457,092 in local, state and federal taxes.	During that same period, we have saved the people of Kentucky \$15,648,887 by permanent reductions in electric rates.
\$15,986,095 for new construction in Kentucky—	\$1,341,720 in retirement funds and insurance—voluntary contributions to employee welfare.	This figure would be even higher if the tremendous increase in the use of electricity during these years was included.

We believe these figures will show that our company is one of the state's important industrial assets. Not only our industry, but all tax-paying, business-managed, job-providing industries deserve fair play and encouragement from all the people.
