PROCLAMATION

WHEREAS February 11, 1947, marks the 100th anniversary of the birth of Thomas Alva Edison in the town of Milan, Ohio and

WHEREAS Thomas Alva Edison devoted his entire life to bettering the welfare of mankind and through his invention of the incandescent and fluorescent lamps, the phonograph, and the motion picture and his nearly eleven hundred other inventions gave the peoples of the world added comfort, health and a multitude of conveniences and

WHEREAS These inventions have created vast industries which are giving regular employment to millions of Americans, and

WHEREAS We are only now beginning to realize the true greatness of Thomas Alva Edison—that he was one of the greatest men who ever lived and that the force for good and for the progress of mankind, born with Edison, shall never die:

THEREFORE, I, W. C. Talbert, Mayor of the City of Carlisle in the county of Nicholas and the state of Kentucky do hereby proclaim the 100th anniversary of the birth of Thomas Alva Edison, February 11, nineteen hundred and forty-seven, to be celebrated as EDISON'S BIRTHDAY

and I do hereby urge all citizens to pause on this day for a moment of reverent homage to one who has contributed in such a large way to the comfort of all, to an outstanding American, to humanity's friend, Thomas Alva Edison.

In witness whereof I have hereto set my hand this 5th day of February, 1947, and have caused the seal of the City of Carlisle, Ky. to be affixed.

W. C. TALBERT, Mayor

News For The Veteran

Education, Training Enrollments Increase

The number of World War II veterans receiving education and training benefits administered by the Veterans Administration in Ohio, Michigan and Kentucky reached 255,530 as of January 1, 1947, it was reported by the VA Branch Office in Columbus. Kentucky veterans attending educational institutions numbered 92,000, while 10,175 were enrolled in job-training.

Questions And Answers

Q. Will Veterans Administration provide me with quinine or atabrine tablets because of my service in malaria-infected countries even though I have never made application for compensation?

A. Yes. For the time being, if you will present your discharge at a VA office and it indicates that you saw service in a malaria-infected country, VA will provide you with quinine or atabrine tablets. However it would be well to establish your rights by filing a claim for compensation.

Q. Are there any restrictions in G. I. insurance on the type of work I do?

A. No. The insured may engage in any occupation, no matter how hazardous, live where he likes, and travel any way he chooses, without affecting the status of his insurance policy.

Copies Of Public Records

Veterans enrolling in farm training classes, schools or on-the-job institutions are reminded that their local contact representative can assist them in obtaining copies of public records, usually at no cost to the veteran. Veterans whose claims require copies of their marriage records, their birth records or their children's birth records should visit the nearest VA office for aid in procuring these documents.

Reporting For Physical

Examination of disability compensation payments will result for all Kentucky veterans who fail to report for physical examinations or re-examinations when notified by the Veterans Administration Regional Office. Re-examinations are scheduled periodically until it becomes apparent that no further improvement can be expected.

Earning Reports Past Due

VA Regional Office reports that 653 of 2,500 Kentucky veterans now required to submit earnings reports by January 5, are now delinquent and face suspension of subsistence payments. Further delay in payment can be avoided by turning in the reports immediately. All veterans taking on-the-job training, whose claim numbers end in 0 or 1 are among those who should have submitted reports by the 5th of January.

Insurance Deadline

Many veterans of this area have been taking advantage of the liberal reinstatement provisions of the National Service Life Insurance by getting their policies back in force. After February 1, 1947, it will be necessary for veterans to take a physical examination before they get their policies reinstated.

SEXY V. F. W. MEETING TO BE HELD FEB. 13
