Render to no man evil for evil. Take thought for things honorable in the sight of all men. Romans 12:17.

Every Citizen Should Vote For A New State Constitution.

(Mt. Sterling Advocate)

At the general election in November the voters of Kentucky will decide whether they want a constitutional convention which will mean the selection of delegates to be named to draft a new constitution for our state. The present document was adopted 54 years ago and is as badly out of date as the horse and buggy days of the past century.

In writing a new constitution, those favoring such an advanced step wish to retain many provisions in the present constitution and eliminate those long out-moded which tend to keep Kentucky from enjoying the progress to which it is entitled. A new state constitution is everybody's concern and partisan politics plays no part. Leading citizens in every community realize that a new constitution would mean the improving of our school system and materially stimulating agricultural, commercial and cultural development.

In the words of Thomas Jefferson written in 1816, "I know that laws and institutions must go hand in hand with the progress of the human mind. As the mind becomes more developed, more enlightened, and manners and opinions change with the change of circumstances, institutions must advance also and keep pace with the times. We might as well require a man to still wear the coat that fitted him when a boy as to require civilized society to remain ever under the regime of their barbarous ancestors . . . . Let us provide in our constitution for its revision at stated periods . . . Each generation is as independent of the one preceding it as that was of all which has gone before."

Some words from one of the greatest statesmen this country ever produced is proof conclusive that he recognized more than a hundred years ago the need of periodic changes in our constitution.

All persons, or at least, a vast majority of them, who have given the matter careful study recognize the fact that if Kentucky is to go forward and keep pace with our sister states a new constitution is imperative. If we fail in the general election this fall, Kentucky will take its place as one of the most backward states in the union. We must keep abreast of the times, and to do this we must have a new state constitution.

News For The Veteran

Pl. 16 Veterans Given School-Time Extension

Disabled veterans may continue educational or on-job training courses longer than the usual four years if necessary to attain their vocational objectives under provisions of the Veterans' Readjustment Act (Public Law 16). Officials at the Cincinnati, Ohio, Branch Office of the Veterans Administration today explained that the Western provision is applicable in cases where veterans are so severely disabled that no course of training should restore them to employability in four years. Also, it applies to veterans who lose time in their courses because of their health or other circumstances beyond their control.

Vets Should Send NSLI Premiums Direct To VA

World War II veterans in Ohio, Michigan and Kentucky who have National Service Life Insurance are so severely disabled that Administration officials to mail their premiums direct to the VA's Columbus, Ohio Branch Office, which is insurance headquarters for the tri-state area.

Veterans who wish to make over-the-counter premium payments may continue using the VA collection offices located in metropolitan communities throughout the three-state area. Otherwise, checks or money orders should be sent to Veterans Administration, Branch Office, California Unit, 52 S. Starling Street, Columbus, 8, Ohio.
