Our real 'bosses' are our customers and the thousands of people in towns and on the farms of the southeast who are waiting for telephones...

Material shortages continue to hamper us and it will still take time to get around to everyone, but you can depend on this: A vastly enlarged telephone organization is installing central office equipment, cable and other facilities just as fast as they become available...

TO TELEPHONE USERS Control offices on the busiest ones. If the dial tone, as the operator's answer, is sometimes delayed, please bear with us until additional equipment can be obtained and installed. Thank.
