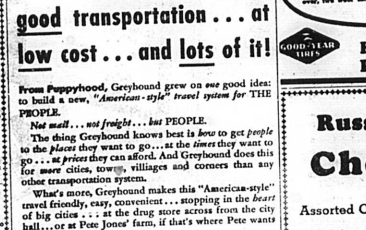
What made Greyhound Grow?


...giving the people good transportation ... at low cost ... and lots of it!

From Puppyhood, Greyhound grew on one good idea: to build a new, "American-style" travel system for THE PEOPLE.

Not small ... not freight ... but PEOPLE.

The thing Greyhound knows best is how to get people to the places they want to go ... at the times they want to go ... at prices they can afford. And Greyhound does this for more cities, towns, villages and corners than any other transportation system.

What's more, Greyhound makes this "American-style" travel friendly, easy, convenient ... stopping in the heart of big cities ... at the drug store across from the city hall ... or at Pete Jones' farm, if that's where Pete wants to get off.

Why do the people like Greyhound? There's your answer! good transportation ... at low cost ... and lots of it.
