It PAYS to wait because FORD TRUCKS LAST LONGER!

Here's the proof!
Average Age 9 Years!

Complete 1946 Registration Figures are in! They tell you plenty about truck endurance. They show there are 1,084,000 Ford Trucks in use—more than any other make. They show that 44 out of every 100 of those Ford Trucks are already more than 10 years old! In fact, there are more Ford Trucks 14 years old and older than similar "veterans" of all other makes combined! That, you'll agree, is real, airtight proof of Ford Truck endurance. And that's why it PAYS to wait a bit for your new Ford Truck.

While you're waiting... for your new Ford Truck, we'll keep your present truck on the job with skilled, experienced, extra-fast service! We've got a good supply of replacement parts. And we use up-to-the-minute, factory-approved methods and special equipment for all service jobs. Make us your headquarters for real truck service!
