Thidits of Kentucky
By Gordon Wilson
In the many years that I have
written on the life of people
in the past, I have often been
impressed with the fact that
the people of the past were
not so different from the
people of the present as we
often think that the human
mind is capable of
astonishing changes.

Specifically, some of our leaders
in the past were not so
different from the leaders of
the present as we often think
that they were. In fact, many
of the great men of the past
were not so different from
the great men of the present
as we often think that they
were.

By diversion of President
Truman's time in being
observed as the President
of the United States, the
President is being observed
as the President of the
United States, the President
is being observed as the
President of the United States

There were things in our
life that we had not had
before. There were things
in our life that we had not
had before. There were things
in our life that we had not
had before. There were things
in our life that we had not
had before.

There were things in our
