Clements' Program of Real Help to Schools --or Desperate Dummit's Promises?

THE GREAT OL' PROMISERS—Promises won't pay our teachers, build up our schools and teach our children. Kentuckians know to their sorrow there is no value to a promise made by a man who has completely reversed himself in two months!

The present Republican nominee for Governor has changed his mind so many times on the stump in the last few months that no one understands what he really proposes to do for education—if anything. For this reason they are now calling him Tweedledee Tweedle-Dummit.

THE GREAT NEED—Our children are Kentucky's greatest asset. They must be taught by well-trained and adequately-paid teachers. They must ride in busses that are safe, to buildings which are the best our citizens can afford. They have been kept waiting too long for decent equipment—while money piled up in the State Treasury and Republican stubbornness blocked action.

THE GREAT OPPORTUNITY — The Democratic program for the improvement of education in Kentucky is plain-spoken and straightforward—honest and consistent. In his opening campaign speech, at Morehead, Congressman Earle C. Clements, the Democratic nominee for Governor, said:

"The Republican nominee has frequently declared he was opposed to using any part of the unencumbered surplus in the State Treasury for the payment of teachers' salaries —retroactive or otherwise. Our party is committed to this appropriation for teachers' salaries, retroactive to the beginning of the present school year. The Republican candidate may or may not change his views. We shall not."

Why take a chance on more worthless promises?
