WHAT—NO ARITHMETIC!

"No arithmetic?" gasped the boy's father. "Do you expect me to send my son to a school that eliminates the basic principles of mathematics, a knowledge needed in every walk of life?"

A school with no arithmetic! what nonsense! Yet is it more deplorable than a school that teaches nothing of God, our first beginning and our last end—of Jesus, our Redeemer and the greatest of all teachers—of the Ten Commandments and the Sermon on the Mount—of love of neighbor for the sake of God—of obedience to our civil rulers because their power comes from God?

To the Catholic the elimination of religious teaching is more than deplorable. It is tragic. For religion is the only solid basis for morality—religious instruction for the mind, religious training for the will. Home teaching or an hour in Sunday school can hardly suffice. God and His will must be an integral part of the child's daily life.

It is because Catholics believe this so firmly, that, while paying their full share of the support of the public schools, they are also buying, land, erecting buildings, and educating with their own money more than 2,500,000 pupils, thus saving you and other taxpayers more than $250,000,000 annually. And this Catholic education in its academic standing, in its teaching ability, and in its educational results, averages well up to the public school education of today.

The United States of America was founded on religious principles. All our schools, up to 1840, were essentially religious. George Washington said: "Reason and experience forbid us to expect that national morality can prevail in exclusion of religious principles" and this sentiment has been echoed by nearly every President since. Who, then, can say that the Catholic School, the nursery of Faith and citizenship alike, is un-American?

If it's anything Catholic, ask a Catholic!

DON'T WRECK OUR CONSTITUTION!

DANGER

Kentuckians, will you sit by while outside pressure groups take over your finances and your future?

Wrecking the Constitution will put you at the mercy of foreign theories and un-American ideas which could shatter the foundations upon which this great State was built.

They would distribute school funds on the basis of attendance. Thus, farm children would be handicapped — while big-city students would get a larger and unfair part of school taxes.

True Kentuckians! Only by your votes can we defend our schools, our homes and our State. On November 4th be sure to vote "NO" and vote AGAINST the dangerous CONSTITUTIONAL CONVENTION!

THE COMMITTEE OF 1000 KENTUCKIANS ASKS YOU TO

VOTE NO!

(Please cut out and post this message at your voting place on election day!)

WARNING!

VOTE "NO"

BECAUSE REVISION COULD

1. Raise your taxes and increase state, county and city debts without limit and without your consent.
2. Provide unlimited salaries for tax-paid officials.
3. Tax farm and home property to pay city debts.
4. Merge counties and consolidate city and county governments.
5. Permit a governor to appoint city, county and state officials without your consent.
6. Give unlimited power to politicians, lobbyists and pressure groups.
7. Permit mixed schools and destroy our present, traditional school system.

Our Present Constitution Prevents All These!

40-Bushel Trees In Apple Orchard

Bennett Brothers of Larue county are expecting to pick about 4,000 bushels of apples. Some trees are producing 40 bushels each. County Agent Howard Campbell notes that 13 sprays were used, resulting in high-quality fruit. Seventeen acres of new trees have been set to replace the old orchard.

Here is the RECORD of Mr. Clements in the U. S. Congress

Congressman Clements has never spoken on the floor of Congress, not even once, in favor of or against any bill during the three years he has been there.

Congressman Clements refused to vote on 54 of the most vital bills before Congress.

Congressman Clements was only present 11 days during the first four months of this year.

Here's Congressman Clements' record on three important farm bills that would benefit Kentucky farmers:

FIRST BILL—CONGRESSMAN CLEMENTS WAS ABSENT.
SECOND BILL—CONGRESSMAN CLEMENTS WAS ABSENT.
THIRD BILL—CONGRESSMAN CLEMENTS OBSCURED HIS VOTE BY OFFSETTING IT AGAINST ANOTHER.

HERE'S CONGRESSMAN CLEMENT'S RECORD ON THE VOTE TO INCREASE THE PAY OF CONGRESSMEN:

PRESENT --- AND VOTING IN FAVOR OF IT!

Congressman Clements drew $5,000 in compensation from the U. S. Treasury for eleven days attendance in Congress during the first four months of 1947.

IS THIS THE KIND OF MAN YOU WOULD WANT TO SERVE YOU AS GOVERNOR OF KENTUCKY??

—Political Adv.

YES INDEED—no matter what the occasion, you'll find everything is easier if you're making every possible use of your electricity. And when you fit Reddy Kilowatt into your budget at the end of the month, you'll realize he *does* work for peanuts. Because—despite the increased cost of everything else you buy, electricity costs less than ever before. *Electricity is worth more than it costs.*

Don't be Fooled by

FALSE CLAIMS!

Political trickery marked the last week of the Clements-Waterfield primary fight and it has appeared again in the present campaign. I urge you to be on guard against such unfair practices, which usually take the form of:

- **False claims and promises.**
- **Whispering campaigns.**
- **Raising of false issues when there is not time for the opposition to answer.**
- **Handbills containing untrue or distorted statements.**

Don't be misled by these unethical devices. They already are being used, but I am certain intelligent voters will ignore them.

I have outlined a constructive program for the state, free of subterfuge and evasiveness. A few of these vital issues are listed for your consideration:

Better rural roads.
Job preference for veterans.
Continued development of state parks.
Finding of new markets for farm products.
Retroactive pay for teachers.
Exemption of veterans' service pay from state income taxes.
Tax revision to attract more industries to Kentucky.
Continuation of welfare program on non-political basis.

$30,000,000 for each of next two years for improvement of Kentucky's school system.

Increase of payments to needy blind, dependent children and aged people by at least $5 a month.

Full support for expansion of cheap power through TVA and REA programs.

State program to aid in education of more doctors for rural areas.

Enactment of community-property law to grant relief other states offer their citizens on federal income taxes.

Continued clean government.

My last plea is that you vote. Whether you are a Democrat or a Republican and whether you are for me or against me, be certain to vote.
