A T-Shirt Becomes A Symbol

Take a piece of red and white buttoned and buttoned together in a correct combination together with a field of blue and the resulting blue and stripes present a symbol with which freedom-loving people are familiar.

The "T-shirt" which was worn on display at the C. Coal Company window this week is more than a garment of wearing apparel. It is a symbol of cooperative efforts of residents of the county and city.

"I shall first look to some of the production lines of the L. Griffin Manufacturing Company, marks the successful achievement of the resident and the manufacturer of wearing apparel. The Mercury believes that this simple garment is only one of many which will be produced locally. The Mercury believes that the success of the manufacturing venture can not adequately be measured by any existing yardstick.

The lesson taught by the Carlisle product should be applied to other products and launched from time to time. Carlisle and Nicholas county can be improved by the manufacturing efforts for their cooperative efforts in the form of the Nicholas County Business Association.

The establishment of a factory has been the result of the formation of the aforementioned organization. The association can aid the factory in a future expansion program and also assist in developing a market for the products of the factory. The Mercury is proud of both the factory and the organization. May both have long and successful careers.

Military Aid Air Transportation Vital

Time and distance have always been the biggest of military supply lines. In the last war these two factors became more prominent as military moved farther from production lines to the long push across the Pacific toward Japan. In many instances the transportation of supplies shortly before the problem of time and distance. The military aid air transportation program is a very important part of the Pacific defense program and one which will be of increasing importance in the future.

Everywhere from the Pacific to the Atlantic, the military aid air transportation program is a very important part of the Pacific defense program and one which will be of increasing importance in the future.

Insolence Supreme

Regardless of what happens in existing and anticipated controversies between John L. Lewis and the coal mine operators, the public should be made aware of the insolence of Lewis. Lewis is an extremely conceited man. He is an extremely conceited man. He is an extremely conceited man.

First of all, the contract which Mr. Lewis and the operators signed is an extremely conceited document and the advantage is all on Lewis' side. It is an extremely conceited document and the advantage is all on Lewis' side.

Secondly, Lewis is an extremely conceited man. He is an extremely conceited man. He is an extremely conceited man.

Thirdly, Lewis is an extremely conceited man. He is an extremely conceited man. He is an extremely conceited man.

Fourthly, Lewis is an extremely conceited man. He is an extremely conceited man. He is an extremely conceited man.

Fifthly, Lewis is an extremely conceited man. He is an extremely conceited man. He is an extremely conceited man.

Sixthly, Lewis is an extremely conceited man. He is an extremely conceited man. He is an extremely conceited man.

Seventhly, Lewis is an extremely conceited man. He is an extremely conceited man. He is an extremely conceited man.

Eighthly, Lewis is an extremely conceited man. He is an extremely conceited man. He is an extremely conceited man.

King and Queen, contestants and highwaymen.

On the 15th of March, 1921, began the fierce and relentless struggle between the trustees and the citizens concerning the highwaymen. The struggle was a long and hard one.
