While the problems of consolidating schools and the stopping of the construction of an unnecessary building is a matter of grave-generate overy man, woman and child in the county, TO YOU (falls the responsibility of electing new board members to the County Board of Education who will do just these things.

Mr. Voter: Did you know that the Plans and Specifications which were bid upon on September 16, 1946, by admission of the Nicholas County Board of Education, call-ary of the Plant of the American an athletic field, tennis courts, finished patking areas, etc. That the cost of these ad-ditions and others known only to the Nicholas County Board of Education will cost several thousand more TANPATER dollars.

Mr. Voter: Did you know that for the past eighteen months the Catliale Independent District Board of Education has been trying its very best to consolidate its district with the Nicholas County Board of Education, and that as late as September 2, 1948, the Carlisle Board again offered to consolidate.

Mr. Voter: Did you know that the principal hold-up of the consolidation of the two
districts above is due to the insistence on the part of the Nicholas County Board of
PROCRAM at a condition precedent to the merger of the District, and the Carliel
Board does not want to agree to any condition such as this which will put to great a
burden on their friends in the country in the form of increased TAXES for years

Mr. Voter: Did you know that the Nicholas County Board of Education voluntarily denied the children of several of your friends and neighbors the right to ride busses owned or operated by the county even though such children had heretofore ridden the busses to the Carlies echool at no additional cost to the taxpayers.

Mr. Voter: Did you know that in the time of distrees in Moorefield in 1947 and before the new building was completed for use this year, that the Carliele Board of Educ-ation offered free of charge a room with all facilities of the beated building provided the County Board would furnish a teather, but such an offer was refused in favor of poorer facilities at Moorefiele.

Mr. Voter: These and many other reasons make it important that you consider who you cast your vote for in the coming election of board members to the Nicholas County.

Board of Education on November 2, 1948. More of these reasons will be brought to your attention before the election.

Headquarters, Taylor's Store, Morning Glory, Myers, East Union, Donnell's Scales, and the portion of City

and Mathias No. 2 lying outside the Carlisle Graded School District:

To YOU falls the responsibility of electing school board members to the County Board of Educa-tion on November 2, 1948.

Building, Sunnyside, Mayor's Office, Mathias No. 1

Mr. Voter: Did you know that the new school is to be constructed without the taxpayers having any voice in voting on it. The Nikolas County Board of Education as asked the Nicholas County Finacl Count to issue REVENUE BOND. count of the building. Such bonds do not require or allow the FEOFLE to have any voice in their issuance as is usual in the case of VOTED BONDS.
