A Kentucky White Tag Feed Southern States

20% Summer Dairy Why? Even the best of pastures cannot su

Why? Even the best of pastures cannot sup-ye nough nutrients to keep your cows up to peak oduction throughout the summer. That's why any herds suffer a severe late summer slump. To keep production high, and avoid a slump, ed the new Southern States 20'. Summer Darry ed. High in TDN (total digestible nutrients), pal-ving well supply and low priced, 20'. Summer juy well supply and low priced, 20'. Summer large well supply and low priced, 20'. Summer large well supply and low priced, 20'. Summer large well supply and low priced and supply and the normal supply and the price of the contrib-ent they need when pastures get low.

It contains malt sprouts with corn, crimped, cottonseed meal and molasses with other high lity ingredients. It gives high quality at lowe. Helps cut your summer feeding costs. Try thern States 20% Summer Dairy now!
