6,000,000th Maytag Washer Sets New Industry Record
 The Maytag Co. today announced that it has produced its 6,000,000th automatic clothes washer. The washer, which is being produced at the company's plant in Maumee, Ohio, is a 13.5-cu.-ft. model with a built-in electric motor and a built-in water heater. It is the largest and most advanced clothes washer ever produced by the company. The washer is built to last and is guaranteed for a minimum of 10 years. It is available in a variety of colors and finishes. The company has also announced that it will be producing 100,000 washers per month in 1950.

NEWS IN THE WORLD
OF RELIGION
BY W. W. REID
 The Methodist Church's Commission on World Peace, in its first annual session, took action recommending "early recognition of the United States of China as a political entity in the Far East." The commission also urged that the United States should be the first to recognize the new government in China. The commission also urged that the United States should be the first to recognize the new government in China. The commission also urged that the United States should be the first to recognize the new government in China.
