FFA Boys Brighten County's Future

Whenever the accomplishments of a group of Nicholas County boys have brought to our attention we can't help but feel certain that they bring a bright future. This was graphically shown in the earnings of seven Nicholas County youngsters, winners of the farm projects contest sponsored by local business men for the Cigarette Club, Future Farmers of America.

These boys represented the county in a contest held at the county fair... The earnings of these seven who took part in the farm projects contest... The total gross income was perhaps several times the reported figure.

Kentucky On the Border

When it comes to the number of automobile accidents in this state, Kentucky is one of the states with the highest rate. According to a report by the Kentucky Automobile Accident Commission, in 1947 there were 14,000 automobile accidents in this state, with a total loss of \$40,000,000. This is a significant increase from 1946, when there were 12,000 accidents with a total loss of \$30,000,000. The commission has identified several factors as contributing to the high accident rate, including speeding, careless driving, and inadequate maintenance of vehicles. The commission is currently conducting a study to determine the causes of these accidents and is seeking ways to reduce the number of accidents and the resulting loss of life and property.
