An Adrenal Tack

One of the liveliest and most forthright contributors to the national defense advisory group, the Saturday Evening Post for June 25th. Written by Rear Admiral D. V. Gallery, the article "Adrenal Tack: Back to the Air" is a powerful re-statement of the theory that we can safely ignore the air force. It is a carefully researched and well-organized study of the air force's role in the future of the world. It is an all-around business which can be carried on in a number of ways. It is a business that is growing rapidly and is expected to continue to grow for many years to come. It is a business that is not only profitable but also socially responsible. It is a business that is not only profitable but also socially responsible. It is a business that is not only profitable but also socially responsible.

The Professional Type

Dr. Gordon Wilson

A comic strip of our American life in the professional field. It is a series of short stories that are both humorous and thought-provoking. It is a series of short stories that are both humorous and thought-provoking. It is a series of short stories that are both humorous and thought-provoking. It is a series of short stories that are both humorous and thought-provoking.

Part Of The Community

Five years ago, according to an article by Bill Woobler in the Nicholas Enterprise Magazine, a combination of circumstances caused the financial bond to fall out of the West Tennessee Oil market. The price slipped to 15 cents. Producers of gas were desperate, and the county agents were frantic.

20 Persons Narrowly Escape Death As Fire Destroys Kimrough Hotel

As fire in the rear room of the Kimrough Hotel, a building under construction at 11th and 2100-2105 streets, broke out Sunday night, 20 persons narrowly escaped death as the flames spread rapidly through the building.

Fire originated in the rear room of the Kimrough Hotel, a building under construction at 11th and 2100-2105 streets, broke out Sunday night, 20 persons narrowly escaped death as the flames spread rapidly through the building.

Plans were completed for the construction of an addition to the Kimrough Hotel which would be a two-story building with a total area of 10,000 square feet. The building was to be used for a hotel and a restaurant.

University Adds Three Staff Members To Public Department

Do You Get Your Money's Worth in Today's Home Appliances?

If You Need A New Appliance For Your Kitchen or Home Laundry, Be Sure to Read The Book About Present-Day Prices!

With so many conflicting stories making the rounds about all lines of merchandise and their prices, you will be wondering about the true value of today's appliances.

The fact is, you can get real value for your money in a good electric appliance today than in almost any other purchase you can make.

As an example, we have a new 1949 Hotpoint electric-foot refrigerator that you can buy for \$189.75—only \$10 more than the same size and kind cost in 1939—yet it's a great deal better. With today's dollar worth only 60 cents in terms of the 1939 dollar, we can honestly say that the actual cost of this new, post-war refrigerator is the price increase in automobiles, houses, or almost anything else you buy—up to \$50 more than 100 per cent.

Hotpoint Inc.
