THURSDAY, MARCH 31, 1949 The Essentials Of Fire Protection

Opestions have been asked The Mercury on that fire protection involves. We shall try to have been asked to be a shall try to man a fire department.

It is a water supply and means for efficient for the shall be a shall be a shall be a shall try to the shall be a shall be a shall be a like a shall be a shall be a shall be a shall be the shall be a shall be a shall be a shall be a like a fire alarm system that will inform for-on of the location of the fire.

It is the auxiliaries of the fire department, the shall be a like a shall be a fire a shall be a sh

e company. It is the construction of buildings, frame or brick, stucco or steel.

It is a system of public education in fire.

It is a system of public education in the II is the general hazard of all conditions, and the total resources of a community that can be total resources of a community that can be obtained against a fine protection specific to Village as well as to a circ, In our small community, naturally facilities and less determine and absents. But the basic nodes—a good water and the condition of the condi
