required constant attention ... and even then burnt half the pie.

Are you alternately scalded and frozen by the rusty dribble from There's an automatic electric

The endless buckets of water that the whole family pumped and toted now appears at the turn of a tap.

Mother does the laundry by flicking a switch.

You can enjoy cooking on the There's plenty of eye-saving automatic electric range that has light available for every room-replaced the old cook-stove which from lamps or ceiling fixtures that fit any purse.

The hay that broke the farmer's back now moves from rack to barn effortlessly—with the help it in the mow.

Your friends and neighbors—the men and women who work for this company—are using their skills and experience to make electricity the smallest item in your family budget. Electricity does so much... for so little!
