**SPRING-CLEANING**

When I was just a little kid, I remember I was told: "When you clean your mind, for my part there was not a word."

But later I changed my mind. For as the most of all mankind, for washing windows or for not boiling soap out in the yard. Few days are better than today. For we have found a better way: "The Lord I always like to look!"

When women get to cleaning homes, no place at home is more important than the bathroom and everything that goes on in it.
