Alleged Facts In Ad Termed False By Dawson

October 31, 1950

Gentlemen:

Last week the Clements organization carried in many weekly newspapers a paid political advertisement, and in some cases two In order that you may identify them, one states that, as attorney for many distilleries, I actively worked for the passage of the act of 1948 which greatly crippled the County Unit Local Option Law by providing that cities of the fourth class and up may vote as separate units on the question of the sale of liquor. That statement and the other statements contained in that advertisement are absolutely false.

The other advertisement appearing in many of the papers to the effect that in the 1950 Legislature, as attorney for several coal companies, I took an active part in defeating the Mine Safety Bill backed by the United Mine Workers of America. That statement is absolutely false. Those advertisements were signed "Democratic Committee."

I do not know if either of those advertisements appeared in your paper. If you received either of those advertisements, I request that you furnish me immediately the name of the individual who furnished and paid for that advertisement. I also request that in the **first issue** after receipt of this letter, you carry in a prominent place, a disclaimer of any knowledge of the truth of the alleged facts set out in the advertisements, and a copy of this letter. You are further advised that if the advertisement is repeated in your paper, I shall consider and treat it as an actionable libel.

I do not have time between now and the election to ascertain which of the country newspapers carried the advertisement and, of course, if you did not carry the advertisements, you will pay no attention to this letter.

I do not propose to let Mr. Clements and his organization publish falsehoods about me in order that he may escape the full responsibility for breaking his promise that he would not permit the County Unit Local Option Law to be weakened, or his full responsibility for breaking his promise to the miners to enact the Mine Safety Bill.

Very truly yours,
Chas. I Dawson

NEEDMORE

By Mrs. Lester E. Wagoner

Mrs. Mollie Dalzelle of Cynthiana is spending a few days with here sister, Mrs. Charlie Ritchie and Mr. Ritchie.

Mrs. Alice Williams is taking a two weeks vacation with her daughter, Mrs. Henry Fryman and Mr. Fryman.

Mrs. Charlie Ritchie, Mrs. Minnie Dalzelle, Mrs. Dora Mynear and daughter Katherine spent Thursday evening with Mrs. Estelle Wagoner and family.

Mrs. Virginia Burns and daughter, Kathleen and Mr. Willie Gilchrist of Maysville, spent Sunday with Mrs. Estelle Wagoner and family.

Mrs. Charlie Ritchie, Mrs. Minnie Dalzelle spent Saturday with Mr. and Mrs. Cecil Mynear and family.

Mr. and Mrs. Henry Campbell and daughter and Mrs. Nora Free-back spent Sunday with Mr. and Mrs. M. J. E. Ferback.

Mr. and Mrs. Junis Ritchie spent Sunday with her parents, Mr. and Mrs. Burnie Burden and family.

Mr. and Mrs. Don Jenkins and son, Billie and Mrs. Bruce Ritchie spent Sunday with Mr. and Mrs. Nathan Ritchie and family of Ewing.

Mrs. Bruce Ritchie is spending a few days with her son, Nathan Ritchie and family. Mr. Ritchie is ill.

Mr. and Mrs. Calvin McKenzie and daughter were Sunday guests of Mr. and Mrs. Henry Fryman.

Mrs. Dorothy Morris, Mrs. Lillie Morris were the Friday guests of Mrs. Henry Fryman and mother.

Farm Land Sales Moving Up Again

Farm real estate activity is stepped up again, after having slowed down last year, according to a study made in four counties by the Department of Farm Economics of the College of Agriculture and Home Economics, University of Kentucky.

The counties were Bourbon, Daviess, Shelby and Simpson.

The number of farms sold last year was about the same as in 1941, after having doubled from 1941 to 1946 and then declined from 1946 to 1949.

"For the first half of this year the County Unit Local Option law sold started up again, compared with the first half of 1949," says the report. "If farm sales continue at about the same rate as for the first half of this year the volume of sales will be about 20 percent greater than last year."

Farm land prices for the first half of 1950 were $6 an acre lower than the average for the first half of the five years which were studied. Since July 1 some increase in farm land prices probably has taken place but, apparently, on the average, farm land is not selling as high as it did a year ago.

"Farm land sold, on the average, at the highest price on record in Kentucky in March, 1949. The peak price in 1949 was 40 percent higher than in 1920, the previous peak year of record. In spite of this 40 percent increase in land prices in 1949 over 1920 for the state as a whole, farm land prices were not a high last year in some regions as they were in 1920. This was the case, for example, in some parts of the bluegrass area.

"There are many factors, no doubt, which influence the price of farm land. Interest rates, taxes and the local demand for farm land are some of these factors. However, farm land prices in Kentucky seem to follow rather closely cash receipts from farm marketings. In Kentucky for the last 20 years, the period over which the information is available, the March 1 price of farm land has followed cash receipts from farm marketings with the exception that changes in land prices lagged behind changes in cash receipts by a year, in good times and bad, the about six months. From year to year changes in land prices, on the average, in Kentucky have followed rather closely the changes in cash receipts from farm marketings, regardless of whether these changes were up or down. The principal difference was that the changes in land prices lagged behind the changes in cash receipts by about six months."

Better Furnishings For Many Families

A total of 30,094 families last year received help through the home-furnishings program of the College of Agriculture and Home Economics, University of Kentucky.

Light fixtures were improved and reconditioned in 13,090 homes and 3,923 families added new lamps. Old oil lamps were wired in 2,499 homes and 5,172 lamp shades were cleaned. Lamp shades made total of 2,550. Window treatments were improved in 9,133 homes, 12,733 pairs of curtains and draperies were made, 5,693 pairs reconditioned, and 4,781 window shades reconditioned. In 6,730 homes major changes were made, including 1,293 new windows added and the position of 749 changed.

Floors were refinished in 7,457 rooms; 2,588 new floors were finished, and 377 floor polishers were made. In refinishing furniture, 29 training meetings were held, and 613 women trained. They returned to their 128 communities and gave this information to 3,570 additional women. As a result, 7,721 pieces of furniture were refinished and 4,934 chairs were reseated.

At training meetings for reconditioning furnishings, 1,103 spring cushions were reworked and 1,658 pieces of furniture were re-upholstered. Knowledge gained at the meetings was used by 2,431 women who resurfaced their worn linoleums and reconditioned other types of rugs. Some use was made of the practices recommended in the care and cleaning of furnishings by 13,304 families. There were 35 meetings held by field agents to train leaders to make slipcovers and 6,166 slipcovers were made. Thirty-seven meetings were held to train women to design and make hooked and braided rugs. As a result 4,532 rugs were made and 1,110 women dyed 7,175 yards of wool material to be used in their rugs.

FISCAL COURT MEETS

The regular meeting of the fiscal court, Wednesday, November 1, the court entered into purchase contract with the Brandeis Machinery and Supply Company, Louisville, for the purchase of a new rock crusher. This crusher will serve as a secondary crusher to the one purchased last year.

36 Acre Farm

AT AUCTION

Saturday, November 18

At 10:30 a. m. on the premises

James W. Miller, Admr. of the estate of Mary Stout, deceased, and representing the heirs of this estate, has authorized us to sell the real estate belonging to this estate.

The farm is located just off Highway 68 on Walnut Grove Road, 4 miles North of Millersburg and 2 miles South of Carlisle. Here nestling in the bluegrass limestone region is a home and sufficient acreage to assure comfort and security. Convenient to churches, schools, and leading farm markets.

The farm contains 36 acres of highly productive soil, all in grass and ready for cultivation. Has good fence and ample water supply. Tobacco base 2.5 acres. Has 6-room home, 3-acre capacity tobacco barn and other outbuildings.

Prospective buyers will be shown the farm by Mr. Miller or by the selling agents. Early possession. Sign on the gate.

85 Acres to be Sold in 2 Tracts

PUBLIC SALE

on

Saturday, November 11

at 10:00 A. M. Sharp

On the premises located three miles north of Bethel, Kentucky, and one mile south of Buzzard Roost, on the Buzzard Roost and Bethel pike.

As administrator of John Rimbach, deceased, I will offer for sale two tracts of land, located in Nicholas and Bath county, and all will be sold from Tract No. 1.

Tract No. 1 contains 15 acres with a good 4-room house and other outbuildings, all in grass, this is a good location, on good road, with milk route, school bus, mail route and other conveniences, located in a good community, plenty of water, and good fence. The baby farm that you have been looking for!

Tract No. 2 containing 70 acres, with a good 4-bent tobacco barn, in good grass but 7 acres, has 7 acres of bottom land that can be cultivated every year. There is a liberal tobacco base on these farms, everlasting water and good fence. The 70 acres is just over the line in Bath county. Any one interested in farm land, which is one of the best investments will be doing himself a favor to look these over before day of sale. Terms liberal and will be made known on day of sale. If interested in looking these farms over, call on Jerry Brumagen or the undersigned selling agents.

Jerry Brumagen, admr.

COVERS NICHOLAS

The Carlisle Mercury

The Largest Circulation In Nicholas County CERTIFIED PAID

VOLUME LXXXIII ESTABLISHED 1867 CARLISLE, KY., NOVEMBER 16, 1950 PRICE FIVE CENTS NUMBER 45

Here Abouts - - -
- - - with Emily Asbury

In my first column in The Mercury almost two years ago, I quoted some stuff aired by my favorite funnyman A. Godfrey.

I'll never forget that day. I'd been thinking about writing a column for some time and was out watching Homer Hollck build our garage and he was at the house when the phone rang. Time—10:20 a. m. it would have been up but the hammering awakened me at an early hour.)

It was Sog who asked me to write a little something and bring it in that afternoon. I was scared to death. What in the world was there to say at that hour of morning? Then Arthur's morning program dawned upon me, etc.

Mr. G.'s subject the number one comedian with this column. Last week he got off one of his better cracks about the elevator. A number of people, including a mother and her young son, stood waiting for the elevator in a crowded department store. When the doors parted and the elevator girl pointedly called "going up".

The mass surged forward, all, that is, except little junior, who stood rooted to the spot. After tugging madly at his sleeve in an effort to move daddy's attention pride and joy, the mother asked:

"What's the matter with you?" in irate tones.

"I don't wanta go on the elevator. It scares my stomach!"

Arthur summed it up by saying that elevators were fine if you expect 'em to go up and they go up or vice versa, but when you set your stomach to go up and the dang thing goes down ... brother that's m-u-r-d-e-r....

—HA—

Somebody answers

Wilhelmina was telling this column of our friend Tronnie Domm, formerly of here, who married Robert Carter and moved to Fort Lauderdale, Fla.

They had one son, Robert, and two daughters, each of whom married a Robert. In order to an avoid confusion, Tronnie says, they nearly have to have middle names, especially at a family reunion.

—HA—

Usually, a careful angler sees that his plug is free from all debris such as weeds, leaves, etc.

Such a fellow would be interested to know that fish at Herrington lake were so plentiful that they were eating leaves right along with shad and crawfish. So says Ralph Smith, who found a two-day trip there with brothers Ches and Green.

Bass began hitting bombers Friday afternoon late at the lake. One big mouth, landed by Ralph, contained a green leaf and shad minnow. Excuse the leaf was there by mistake, no doubt, but it does go to show that when bass are hungry and hitting, a little bit of foreign stuff on the bait is like lettuce on a salad, or something. . . .

—EA—

Consolation for old maids

Say you wanta get married young lady. Well, just for fun let's look at the picture . . .

Say you're 20 years old and are getting married this year. Your life expectancy, in round numbers, is approximately 70 years. Subtracting 20 from 70, that leaves 50 years of married life kicking around.

On the basis of three meals a day, seven days a week, fifty-two weeks a year, you can look forward to preparing some 54,600 meals for the man across the table.

And, unless you eat on paper plates, there's about the same number of dish washings. (I don't know what makes me think of things like that.)

—EA—

By all means

The man was on a crowded trolley one afternoon holding his young nephew on his knee. A pretty young blonde boarded the car, stopped in front of them and reached for the strap.

Looking at her appreciatively, the man nudged his nephew. "My boy, why don't you get up and give the lady your seat?"

—EA—

This 'n that—thanks to Lillie Belle Alexander and Alpha Brierly who keep us posted on NCHS ball games...the residents of the

(Continued on Page 8)

Local Gridders Boast Best Defensive Unit

The Carlisle High Musketeers, under the direction of Coach Tobay Rose, not only completed its most successful grid campaign in many years but were the strongest defensive unit during season play in the CKC.

The number one defensive team allowed only 53 points to cross its goal line in seven encounters, one less than the Shelbyville Red Devils in eight games. In conference games alone, however, Somerset with just one ID in three conference clashes, Henry Clay with 40 and MMI with 44 ranked ahead of the defensively fourth Musketeers.

Of the 143 points registered by the green and white, James 'Doot' Hardin was responsible for 81, thereby ranking him among the leading scorers during the 1950 season.

On the basis of teams played and games won, the Musketeers, with a 6-1 record ranked fifth in the final CKC standings.

FINAL CKC STANDINGS

	W	L	PF-PA
Henry Clay	4	0	1	94- 40
Somerset	4	0	2	84- 7
Shelbyville	4	1	1	240- 54
Irvine	4	1	2	177- 78
Carlisle	4	1	2	143- 53
Winchester	3	2	0	184- 86
Danville	3	2	1	136- 59
Mt. Sterling	3	2	0	120- 89
Nicholasville	3	3	1	66- 58
MMI	3	3	0	59- 44
Georgetown	4	5	0	72-182
Versailles	3	4	1	155-124
Harrodsburg	2	3	0	46- 93
Madison	2	4	2	61-112
Lancaster	2	4	1	27- 96
Paris	2	5	0	132-173

Cynthiana	0	7	0	6-134

CYNTHIANA PICKETED

Cynthiana was among several Kentuck towns whose telephone offices were picketed this week by CWA picketers.

Gov. Clements official majority was 56,418 votes.

County Nips W'town, Lose To BVHS; CHS Cagers Meet Camargo Friday

Coach Leo Wild's Nicholas County Blue Jays opened their basketball season here Friday night when the Musketeers meet Camargo in a doubleheader slated to get underway at 7:00 p. m.

Coach Rose, who was non-committal as to the strength of this year's team, said he expected quite a battle with Camargo, one of additions to Musketeer schedule.

They will floor the same team, with the exception of one boy, but beat Mt. Sterling in the district tournament last season", Rose said.

Four letterman, Billy Tolliver, Doot Hardin, Kimball Booth and Frank Cavanaugh will probably form the nucleus of the squad, which includes five juniors, three seniors, one sophomore and one freshman.

Thirteen candidates are vieing for "B" squad berths—Bobby McFarland, Billy Darnton, David Hardin, Eugene Kelly, freshmen, Benny Donovan, Billy Storey, Herman Bretz, Gilbert Logan, Charles Carter, sophomores; John Willis, junior; Jackie Shepherd, Larry Cameron, eighth grade and Billy Gilley, seventh grade.

Carlisle will journey to Sharpsburg Tuesday night before playing host to Paris here next Friday night.

Survival Chances Better

According to the booklet the power of all bombs is limited, your chances of living through an atomic attack are much better than you may have thought.

In the city of Hiroshima, slightly over half the people who were a mile from the atomic explosion are still alive. At Nagasaki, almost 70 percent of the people a mile from the bomb lived to tell their experiences. Today thousands of survivors of these two atomic attacks live in new houses built right where their old ones once stood. The war may have changed their way of life, but they are not riddled with cancer. Their children are normal. Those who were temporarily unable to have children because of the radiation now are having children again.

If a modern A-bomb exploded without warning in the air above your home tonight, your calculated chances of living through the raid would not be something like this:

Should you happen to be one of the unlucky people right under the bomb, there is practically no hope of living through it. In fact, anywhere within one-half mile of the center of explosion, your chances of escaping are about 1 out of 10.

On the other hand, and this is the important point, from one-half to 1½ miles away, deaths drop all the way down to only 2 or 3 out of each 100.

Beyond 2 miles, the explosion would cause practically no deaths at all.

Naturally, your chances of being injured by radioactivity does not mean that you will be left a helpless cripple doomed to die an early death. Your chances of making a complete recovery are much the same as for everyday accidents. These estimates hold good for modern bombs exploded without warning.

Injury Range Over Mile

The injury range of the explosive radioactivity from a modern A-bomb is a little over 1 mile, if the bomb is exploded about 2,000 feet in the air. If it is exploded much higher, the radiation also may not reach out as far, because it would be blocked by the ground or by building.

A little more than a mile away, the principal effects of the fire flying rays that struck you could be seen only as temporary blood changes in a doctor's examination. You probably wouldn't even realize you had been exposed.

A little less than a mile from the explosion center, if you are unprotected, you are almost sure to suffer illness. Less than two-thirds of a mile away, those caught in the open are pretty sure to end up a fatal dose of radioactivity.

In any case, remember, always put first things first and never lose your head.

Six Survival Secrets Are Musts In Case Of An Atomic Attack

No one expects an atomic bomb to be dropped here in Nicholas county, but no one expected the Japanese to bomb Pearl Harbor.

In the event of atomic **warfare**, the U.S. Government has prepared a booklet entitled "Survival Under Atomic Attack" which **serves** to enlighten the American **public** about facts pertinent to **super** bombs.

Here are six survival secrets the government urges all Americans to memorize in leiu of such an attack:

1. **Try to get shielded**—If you have time get down in a basement or subway. Should you unexpectedly be caught out of doors, seek shelter alongside a building or jump in any handy ditch or gutter.

2. **Drop flat on ground or floor**—To keep from being tossed about to and fro and to lessen the chances of being struck by falling and flying objects, flatten out at the base of a wall or at the bottom of a bank.

3. **Bury your face in your arms** when you drop flat, hide your eyes in the crook of your elbow. That will protect your face from flash burns, prevent temporary blindness and keep flying objects out of your eyes.

4. **Don't rush outside right after the bombing**—After an A-bomb burst wait a few minutes then go help fight fires. Remain inside. A burst **wait at least one hour** to give ingering radiation a chance to cool down.

5. **Don't take chances with food or water in open containers**—To prevent radioactive poisoning or disease, protect your food with care. When there is reason to believe they may be contaminated, stick to canned and bottled things if possible.

6. **Don't start rumors**—In the confusion that follows a bombing, a single rumor might touch off a panic that could cost your life.

To Mrs. Housewife, the following five keys to household safety are directed: 1) strive for fireproof housekeeping, by not bring trash pile up. 2) know your home and which is the safest part of your cellar. 3) Have emergency equipment and supplies handy, ie, good flashlight, a radio, first aid equipment, and a supply of canned goods. 4) When an alert sounds, close all the windows and doors and draw the blinds, to keep out fire sparks; radioactive dust and lessen the chances of being cut by flying glass. 5) Do not use the telephone unless absolutely necessary. Leave the lines open for real emergency traffic.

PRIZE FOR RED CHINESE—This is an air view of Shigatse, Tibet, second largest Tibetan city. Chinese Communist radio'at Peiping has announced that China's army has marched into Tibet "to free millions of Tibetans from imperialistic oppression." The mountain-plateau land of Tibet covers 475,000 square miles. It broke away from China's domination as the 1911 revolution.

Donnie Gaunce

Donnie Gaunce, who tabbed 24 points, (73 in four games) led his team to its second victory.

Thursday night, the blue and white were nipped by Orangeburg 32-29 in a Licking River Valley conference clash in Lewisburg. Gaunce again led all scorers with 14 tallies.

Tuesday night, after enjoying a narrow 34-32 third quarter advantage, the Jackets dropped a 48-45 decision to Bourbon Vocational Colonels in Paris. Gaunce, Ward Shannon and Phil Hillock were best for the losers, While Pridemore tabbed 10 for the Colonels.

Tomorrow night, NCHS will return home for a doubleheader with Minerva. Game time, 7 p.m.

PMA Committeemen To Be Nominated In Four Communities November 20

Not Til Friday

Next week your copy of The Mercury will not reach you until Friday, since there will be no mail deliveries on Thanksgiving Day, November 23.

However, single copies of The Mercury will be on sale at Goffin's, the Carlisle Drug and Williams, Wednesday night and Thursday.

Nominations of farmers to serve as community PMA committeemen and as delegates to the county convention which will select the county PMA committee will be made in community meeting in Nicholas county's four PMA communities on Monday, November 20.

According to H. S. Vice, chairman of the county committee, meetings will be held at Headquarters school, Myers school, Moorefield school and the county court room. All meetings will begin at 1 p. m.

Election of the PMA committeemen for these communities will be held on Tuesday, November 28. Each farmer will be notified at a later date of the place in his community where he will vote. On election day the polls will open at 10 a. m. and close at 4 p. m.

Three committeemen and two alternates and a county convention delegate and an alternate are to be elected in each of the PMA communities. Farmers are to be nominated for each of these offices at the nominating meetings on November 20.

Any farmer is eligible to participate in his community if he is an owner, operator, tenant, or sharecropper on a farm that is participating in any program administered during the current calendar year by county and community PMA committees.

Farmers are being notified by mail of the communities in which their farms are located.

EADS CHILD BURNED

Bobby Eads, son of Mr. and Mrs. Allen Eads, was treated at the Nicholas County hospital Wednesday for superficial burns to his leg and back received when he fell into scalding water at his home.

After emergency treatment he was taken to his home on North street.
