

The Carlisle Mercury ESTABLISHED 1947. Published and Printed Every Thursday at Carlisle, Kentucky. WARDEN R. FISHER, JR., Editor-Publisher. EMILY ASBURY, Associate Editor. SUSSCRIPTION RATES PER YEAR. In State, \$2.00 - Out of State, \$2.50

Our Editorial Platform 1. Zeal of its staff for covering fire calls. 2. Consideration of city and county schools. 3. Maintenance of public parks. 4. Better lighted business district. 5. Establishment of a Board of Trade.

THURSDAY, SEPTEMBER 14, 1950

Moving Along These progressive businessmen who ventured money towards a traffic sign at the end of the concrete to new streets 12 and 11 instead of highway 60, may have to shift yet.

A painter, in form of Bill Power, has provided his services when the sign is erected. As this is printed, several tree stumps, grapes and eating plants have offered cash donations. Newsman Robert E. Williams, who includes James Watkins and Ralph Shearer, are Frank Stone's Service Station, Green and Miller Service Station, and Germany Service Station, Chester Garage. The Mercury is happy to get the names we hope to publish before the sign becomes a reality.

48 Too Many An editorial in last week's Mercury stated that some 40 people at the Booker T. Washington school in Henryville had only one instructor. That was not the case. There were 47 and last year's attendance was 48 too many. When school opened, the article was printed. Some 12 students enrolled in the night grades represented in the colored school. The Mercury is happy to reduce this number to its actual figure.

Pretty Good Shape Possibly one good reason for hesitancy on Henry's part to attack this country directly is the reasonable certainty that the Kremlin knows the extent of American industrial capacity far better than the average American. Following are reports of leaders in key industries.

Not Again Chain store representatives in discussing proposed price controls, have pointed out that they are not to be disturbed by the shifting target. They will do the things that people need for everyday living—articles and food they can't do without. The store buyers are being held close to normal buying schedules, which helps keep the country on an even keel.

Cost Of Operating 36 Subunits In County During '29-'30 Term Set At \$60,000. The total cost of operating the 31 water light schools and the three colored schools in Nicholas County during the 1929-'30 term is \$100,000, according to reports of receipts and disbursements. \$39,237.47 of the money spent was for the state school, which was \$21,000 from the federal school and \$18,237.47 from the state school fund.
