Welcome, Strangers

A Sunday night or a week, a stranger to the congregation settled himself on a bench in one of our local churches.

When the service was over a curious "regular" went over and extended the right hand of fellowship. After the handshake a glad face was visible in greeting the young man volunteered the information that he had just passing through Carlisle, saw people going into churches and decided he'd stop in the sanctuary and visit with God.

"We're blessed with many fine churches, ministers and church people in our town and county."

It is the young traveler, as well as local persons not in the habit of attending the church of their choice, the doors of our churches are always open.

The following was read on a sign in front of a large church.

What is missing in the above?

Take It Easy

In the morning, at noon time and mid-afternoon, Monday through Friday, our school children cross the streets and are on their way to and from school.

School officials ask you, the driver, to be on the alert at all times, to look during driving in your path.

And while driving in a school zone, remember to reduce your speed. Make sure that you don't rear the biggest day of your life.

Major Miracle

Even skeptics cannot be impressed by the speed with which supplies line to the Korean battlefield have built up. From a standing start less than two months ago a sizeable army has been moved across an thousand miles of ocean and sent into combat. It is impossible for laymen to appreciate fully the magnitude of such a feat.

A single U. S. infantry division for example,

Reservoir Alarmingly Low; Recent Rains Have Not Benefited Supply

Monday, September 18, 1950
Many Carlisle water consumers are apprehensive of the situation that the local rates of the past week have benefited the water works. The reservoir is alarmingly low and the water is becoming increasingly scarce.

The situation for Nicholas county shows that in 1929 there were issued 75 marriage licenses, while in 1928 there were granted 100. This is a record for the county.

Rock Me To Sleep

By Dr. Gordon W. Wilson

Along about Monday, the 19th, I was asked to write about a subject which is of great interest to many of our readers. The subject is "Rock Me To Sleep".

The process of sleep is a complex one, involving many factors. It is a state of unconsciousness, a state of rest, a state of relaxation.
