Scrap Is Worth Money

The steel mills and foundries need more scrap metal than ever—old farmers everywhere are being asked to sell their scrap to dealers without delay.
The situation is urgent. The steel industry and foundries are running at a record high rate of expansion program. Mills are in the midst of a big expansion program. Mills are in the midst of a big expansion program. Mills are in the midst of a big expansion program.

No Witch Hunts

The American Communists and their fellow travelers have been in the news for some time. It is perfectly natural—this is the first time since the late 1930s that the question of eleven top Communist leaders has been raised. It is a dominant factor in the Hiss, Coplan and other such cases.

Local Jail Opens First Time In Months

C. H. Davis Opens Bowling Alley On Market

July 31, 1951
For the first time in many months the local jail is empty. It has been closed since the last one of his charges served 180 days for the expiration of his term.

THE BIBLE SPEAKS

"BUT, KENNETH I'VE FOUND IT!"
"I'VE FOUND IT!"
"I'VE FOUND IT!"
"I'VE FOUND IT!"

No Free Lunch

YOU cannot get a free lunch. It is a well-known fact that the world is a "zero-sum" game. In other words, for every gain there is an equal and opposite loss.

Capitalism

Capitalism is a system of economic organization. It is based on the principle of private property and the free market. It is a system that has brought about the greatest material progress in the history of the world.

Our Ordinance

OUR ordinance is a landmark in the history of the city. It is a measure that will bring about a new era of progress and prosperity. It is a measure that will bring about a new era of progress and prosperity.

A Personal Letter To The Voters of Nicholas County

Friends:
I was born and raised in Nicholas County, and lived in Nicholas County many years. I have the interest of Nicholas County at heart—much more so than I could possibly have if I had never lived here and was a stranger to Nicholas County.

My record in office proves my loyalty to Nicholas County. I voted against the Falmouth Dam (and will continue to do so) --- I helped improve the Nicholas County Road system---I helped your fine Fiscal Court and your fine County Judge sell rock to the state. These things, and others I have done for the GOOD of Nicholas, are accomplished results. They are MORE than promises. They clearly indicate what I will do in the future.

During these troubled times, an office holder needs to be sincere, reverent, and needs to have strong religious faith. I have tried to live my own life according to Christian morals and principles. I am devoted to the church and the religious ideas for which it stands. It is my honor and privilege to hold office in church organizations. I am president of the Laymen's League for the State of Kentucky; I am president of the Laymen's League of my own church, and I am a deacon in that church. I sincerely believe my religious faith will stand me in good stead in helping me to decide the weighty problems to arise in the Kentucky Legislature.

I am proud to have served our great country as a soldier during the last war, and to be (along with your sons, brothers and husbands) one of that great company of American veterans.

This message to each of you folks is not only for the purpose of asking you to vote for me—although I hope you will—if you believe in the things for which I stand. This message is also to ask you to come out and vote—whether for me or not—but just vote. Many Americans have died for the freedom and liberty you and I enjoy. The greatest part of that liberty is the right to vote—the right to choose those who will govern us.

I urge you to use that great privilege in the election on Saturday, August 4th. Much is said these days about corrupt politics, machine politicians, and powerful special interests (utility corporations, etc.)—but here is an opportunity for each of us to do something about it—we can come out and vote.

Sincerely yours for a better Nicholas County,

Joe T. Snapp
