Strike Back At Cancer

Since cancer strikes one out of every two of the citizens of this country, the combined efforts of the United States, the combined efforts of the citizens of this country to attack and defeat cancer during the month of April is especially important. The Carlisle Mercury is sponsoring a campaign to educate the people of our county in ways in which to combat this disease and to give money to support cancer research and medical treatment for cancer victims, to the purpose of this campaign.

Last year Nicholas county had double the amount in donations to the cancer drive in treatment of local cancer patients, at the various hospitals here.

Although every people develop cancer daily, more than half of them can be saved by adequate medical care and family care. The money you give to the cancer drive may help a thousand families. Strike back at cancer today.
