The power that America must have if she is to remain goat does from the singley goeranous of her business-managed electric companies. In World War II, electricity was never no inliet or too last. Since then, business-managed companies have been doubded date reporting. Here's Kennecky Utiline's Company-III. Work of doubling the size of a third virtually completed.

Take a look at that big healthy ear on the left. The one with the deep, golden kernels and the small but well-filled cob. It's a typical Southern States Hybrid ear. And it means more can for you to feed. And more carr for you to sell!

you to teed. And more corn for you to sell!

You see the difference for yourself — shell
out a Southern States Hybrid ear and an
ordinary hybrid ear to compare. You'll get
more shelled carn from the Southern States
Hybrid. Remember, a few dozen of these
eatra kernels per ear make a whole of a
difference in your total yield.
