### Kentucky Hospitality

The article, "Kentucky Hospitality In Revers," printed on page one of this week's Mercury, to which we refer as an illustration to our country, was so well received by our readers that we have had to reprint it several times, although we use the term "hospitality" only in a broad, general sense. We do not mean to imply that we are being hospitably entertained, but we do mean to say that we are being hospitably received. We are proud of our country and of the people who live in it. We are proud of the hospitality which we have shown to our guests and of the hospitality which we expect to receive from our friends in the future.
