**More Kentucky Doctors**

According to a booklet received here under the title "More Doctors for Kentucky," which was compiled by the Board of Trustees at the University of Kentucky, it is apparent that our state needs more doctors per capita, especially in the rural areas.

The booklet analyzes several state medical schools at the University of Kentucky to show the problem of getting more doctors for the state has been left up to the General Assembly, the state medical association and the university. It proposes a proposed medical school at Lexington would provide facilities for more medical students in Kentucky and that Kentucky more doctors in the future.

It is noted that the booklet also welcomes the establishment of such an institution which would provide more doctors and more adequate medical service throughout the state.

**Arre Profits Big Enough?**

The president of the Chamber of Commerce of the United States recently made some telling comments on the vital subject of wages and profits.

He pointed out that while the unions use "equality of sacrifice" as an argument for higher wages, the fact is that hourly earnings in manufacturing plants have risen faster than prices since the Korean war started. Employees have received important fringe benefits in addition.

The corporation, after taxes, are now at their lowest level since 1946—two years ago. It has been estimated that the average worker has earned more than 50 percent in that time. It is obvious innumerable more higher wages out of profits. So far as that time, it has increased over \$1,000,000,000. So, it is currently only about \$1,000,000,000. It is generally only about \$1,000,000,000. It is generally only about \$1,000,000,000.

**Holmes Myers Wins Spelling Contest; Moorefield Family Leaves For Kansas**

Thursday, February 25, 1952  
 Holmes Myers, student in the Cane Run school, won the county-wide spelling contest and will represent the county at the state level in Louisville, Ky., on Saturday, Feb. 27.

**REVIEW OF THE YEAR—By Alan Mavers**

The year 1951 was a year of great change and progress. It was a year when the United States emerged from the shadows of the Korean War and began to look forward to a brighter future.
