"We did it Again!"

That's the jubilant news that comes from Flint to every Buick dealer - and here we pass the thrilling story on to you. It sure is true for '52 that better automobiles are being built - and Buick is building them. Read the good word and you'll agree.

Let's put this down to plain statements of fact and let them speak for themselves: The dynamic driving pictured here is the 1952 ROADMASTER. It has the mightiest engine in Buick history. It is the quietest car that Buick ever built.

It has the richest fabrics and smartest tailoring that ever graced a Buick's interior. It has the greatest trunk space since spare tires moved off the front fenders. It has the most superb ride in Buick history.
