Twin Enemies

Raymond Moley recently devoted one of his Newsweek columns to the radicals and reds of whom Alger Hiss became the most notorious —who managed by devious ways to work themselves into strategic positions within the government. Of them he said: "These people conceived themselves to be a part of a class struggle. They believe that free enterprise had neither the ethics nor the brains to safe itself and that it was doomed. They, with the aid of the left-wing labor leaders and the politicians who hold the balance of power in the cities, were to be the ruling group."

"The concept of what form this rule would ultimately take varied from person to person. Some called it liberalism; others, government planning; others, democratic socialism. Hiss and some others were communists. But the point was, "I want to emphasize, was in each case the same: the liquidation of our conservative traditions was the same. And I believe the danger to our free institutions will be the same unless we regard socialism and Communism as twin enemies."

Every American should read and remember that. Many of us, quite sincerely, have regarded socialism with tolerance. We have admitted even when we have not agreed with, such high-principled socialists as Norman Thomas. What we have forgotten is that socialism has proved, in nation after nation, to be only a way station on the road that leads inevitably to dictatorship. Men of the Thomas stamp are always purged at a certain point and the Stalins take over all power.

Free institutions cannot live long under socialism, any more than they can live under communism.

Community Development

The meeting Friday night at the court house concerning a community development contest is one which should be attended by all those interested in the advancement of Carlisle and Nicholas County.

A great many improvements in Carlisle and Nicholas County have been made over the past few years without the aid of any centralized active body. These improvements have made this community a better and more prosperous place in which to live and rear a family.

Further improvements in the community will also mean more of the same thing. With the organization of a group Friday night to stimulate this work there is no telling how much improvement and progress both the city and county would see in the next few years if the proper amount of enthusiasm emerges from Friday night's conference.

The meeting is open to everyone. No one is definitely in the organizing seat. It is hoped that the nagging will attract a large gathering of civic minded businessmen, housewives, farmers, and others who in the past have given of their time and energy to work for a better community. New faces and new ideas will be welcomed.

As a medium of dispensing information in this community The Mercury would like to urge everyone to be present. We feel that an organization of this type would go a long way toward benefiting all segments of population in our city and county, and therefore directly affects your future, welfare.

Lightning Hits Three Times In County; How Sells Moorefield Farm To Morris

Thursday, July 21, 1932

During an electrical storm which accompanied a downpour of rain in Carlisle and vicinity Saturday about noon, lightning *struck in three places on the Moorefield estate*, the lightning struck the front porch of the home of George D. God Prepares a Leader

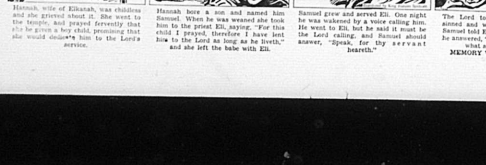
ILLUSTRATED SUNDAY SCHOOL LESSON

Scripture—I Samuel 1:1—4:1A.

By Alfred J. Buescher



Hannah, wife of Elkanah, was childless and she grieved about it. She went to the temple, and prayed fervently that she would desire a son to the Lord's service.

Hannah bore a son and named him Samuel. When he was weaned she took him to the priest Eli, saying, "For this child I prayed; therefore I have lent him to the Lord as long as he liveth," and she left the babe with Eli.

Samuel grew and served Eli. One night he was wakened by a voice calling him. He went to Eli, but he said it must be the Lord calling, and Samuel should answer, "Speak, for thy servant heareth."

The Lord told Samuel that Eli had sinned and would be punished. When Samuel told Eli what the Lord had said, he answered, "It is the Lord; let Him do what seemeth Him good."

MEMORY VERSE—I Samuel 2:26.

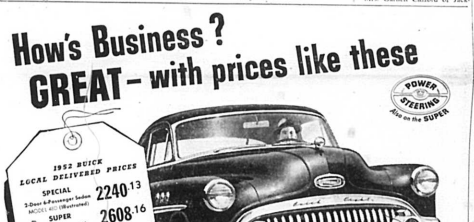
How's Business? GREAT—with prices like these



THIS is—to coin a phrase—a "shopper's market."

Folks are taking a keen look at what they get for what they pay—and they're taking a double look at price tags.

That's the kind of market where Buick really shines.

Do you know why?

Buick prices are down within easy reach of the folks who buy what's known as "the low-priced three."

Fact is—a big chunk of Buick sales comes from the folks who trade in one of this low-priced trio.

For very few extra dollars, they're getting a lot more automobile.

They're getting more power—and the thrill that goes with it.

They're getting "big-car" comfort. They're getting a ride that cost a million dollars and more to develop.

They like the room, the fabrics, the extra appointments they find in the smart-stepping beauty pictured here. And they like Dynaflow Drive.*

They like the way it* handles. They like the way it's engineered. They like the belt they get out of touching off the power of its Fireball 8 Engine—and they like the miles they get from a gallon of fuel.

So Buick sales are booming. Not just the SPECIAL—but also the SUPER and ROADMASTER. Folks find that each one is the buy in its field.

When we tell you that business is great, we can back up that statement with figures. More people are buying Buicks than any other car at their price or above.

Why don't you come in and see for yourself what's behind this popularity?

If you can afford a new car, you can be the proud owner of a Buick.

*Equipment, accessories, trims and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series.*

Sure is true for '52

When better automobiles are built BUICK will build them
