Hospital Robbed Early Thursday

Thieves entered the Nicholas County hospital early last Thursday morning, pried open a locked cash drawer, and escaped undetected with around $100 in cash and $700 in checks.

Sheriff John Clinkenbeard placed the theft between the hours of 3:30 and 7 a. m., the time the robbery was discovered by Mrs. James Lawrence, nurses aide, who found the cash drawer open when some reports.

Sheriff Clinkenbeard stated that he believed that the theft was committed by two men, one of which entered the hospital through a door in the roof and opened an exit door on the main floor for the other.

Nothing in the main office was disturbed with the exception of the cash drawer.

Two On Duty

On duty the morning of the robbery was Mrs. Tina Grooms, night nurse, and Mrs. Lawrence. Both were in the nurses quarters at the rear of the hospital when the theft occurred.

The steps leading to the main floor from the roof end almost opposite the nurses lounge. According to Charles Cox, county attorney, a woman who was staying with a patient, slept in this room from about 3:30 a. m. on, the morning of the theft.

The hospital was near capacity the morning of the robbery and patients reported hearing footsteps on the roof about 2 a. m. and again about 4 a. m.

The fact that the robbery was committed without raising an alarm, led officers to believe that the culprits were familiar with the hospital routine. The main office, in which the cash drawer was located, is closed at 9 p. m. and is seldom visited until the next morning.

Bloodhound Used

A bloodhound owned by the Mulligan service in Lexington was brought to the scene Thursday afternoon and led officers down the Moorefield road about three miles, cut off on the old Moorefield road until he again reached the main highway, and then through a corn field to the colored section of that community.
