Your Dimes Are Winning

The 1953 March of Dimes Campaign is underway.

Last year was the worst polio year of all time with 55,000 cases being reported. In Kentucky alone, 1,740 cases of polio were reported in 1952 as the epidemic in this state also hit an all-time high. Local polio chapters, using funds contributed to the March of Dimes campaign last year, have a large burden of the epidemic by helping families meet the financial obligations that polio brings in its wake.

Fortunately for Nicholas County, only one case was reported here last summer. The local chapter helped the family with the hospital expenses and in numerous other ways aided the family in their crisis.

Funds donated to the March of Dimes campaign are distributed between the local chapter and National Foundation. Sixty per-cent of the total is kept at home for use in helping to meet hospital and other medical expenses that go along with polio. The other forty percent is sent to the National Foundation where research is carried on to develop some sort of preventive for the disease. A portion of the national fund is held in reserve for local chapters when during an epidemic the local fund becomes exhausted.

The local chapter, besides helping polio patients financially, also gives counseling on such matters as what hospital to enter, transportation there, and other such social work that is so important to much needed and appreciated when tragedy strikes.

After a patient leaves the hospital and is in the rehabilitation stage the local chapter helps the family meet the expenses of special braces, shoes and other necessary items that speed the victim on the road to recovery.

Polio research, financed by contributions to the March of Dimes, is winning the battle to develop a preventive for the disease. Late in 1952 the first trial of gamma globulin, a substance used to immunize against paralytic polio, was given 55,000 children in severe epidemic areas in Utah, Texas and Iowa. The tests proved it did give some degree of temporary immunity to the disease. More important, perhaps, was that it showed that polio research was on the right track toward a lasting preventive and control of the disease.

These many worthwhile projects in the fight against polio are all financed by your contributions to the March of Dimes. Give more this year than ever before—toward the time when polio epidemics will become a thing of the past.

Who Bears The Tax Burden ?

If you're still gullible enough to believe that we can pay most or even a substantial part of the incredible cost of government by "soaking the rich," some facts that Senator Walter George presented in a magazine article will come as a rude awakener.

If Congress confiscated all taxable income over $100,000, by imposing a flat 100 per cent tax at that level, the amount of additional revenue would be sufficient to operate the Federal government for four hours.

If all taxable income over $26,000 were confiscated, the yield would run the government for three days.

If everything above $10,000 was taken in toto by the tax collector, it would pay the government's bills for 16 days.

Finally, if Congress shot the works by imposing a 100 per cent tax on all income above $8,000, the additional revenue would keep the government going for 22 days.

This being true, who must pay the great bulk of the government's spending—and who must pay almost all of future increases? Why they come? The answer is, people of small and moderate means—the people who work for wages and modest salaries, the people who have little businesses, the people who represent the majority of America's population and are the backbone of America's strength.

Fire Damages Cameron Residence; Ernest Garrett Leaves For Wisconsin

Thursday, January 5, 1933

Fire of unknown origin about 7 o'clock last Thursday night has caused considerable damage to the brick residence of S. T. Cameron on Dorsey avenue.

—20—

Since the announcement by Governor Laffoon, extending the time for buying 1933 automobile license plates, the sale of licenses at the clerk's office have virtually ceased. Only about 50 were sold Wednesday only 266 license plates had been purchased.

—20—

The following offerings for produce were quoted by the Blue Grass Produce Company Wednesday; eggs, 25 cents per dozen; hens, 7 and 8 cents per pound; springers, 7 and 8 cents per pound; roosters, 3 cents per pound; and turkeys, 7 to 10 cents per pound.

—20—

Mrs. Bruce Hughes is the owner of a turkey hen which produced 24 eggs and Mr. Clifford Varner, both of Nicholas, December 24 in Cynthiana.—Miss Mary Varner, Nicholas, and Mr. William Butler, Harrison, in Cynthiana December 24. —Miss Ruth Flood, Carlisle, and Mr. William F. Calvert, Louisville, Sunday in Shelby county.—Miss Ruth Murray, Carlisle, and Mr. Cecil King, Flemingsburg, at West Liberty December 28.

—20—

DIED—John Avery Burgess, 23, at his home near Moorefield. —Lorenzo Dow Davis, 82, at his home near Myers Friday night following a long illness.—Mrs. Belle Froman, 80, December 27 at her home at Pleasant Hill, Mo.—Mrs. Lou Howard Chandler, 42, Sunday at her home in Covington. —Mrs. Amelia Cooke, last Thursday night at her home in Harrodsburg.—Rev. J. W. Crates, Sunday night at his home in Eminence.—Mrs. Mary Burns McRohan, 89, Sunday morning at the home of her daughter in Lexington.

Thursday, January 8, 1903

Ernest Garrett leaves for Janesville, Wisc., to enter Commercial school.

—50—

Harry Mathias returns from Covington and takes position as foreman in Democrat office.

—50—

Leo L. Heyman of Cefferville, Kan., buys Graeter grocery and bakery and takes charge of business.

—50—

John H. Sammons takes position as saddle maker for M. J. Archdeacon and will make the famous Dallas saddle.

—50—

Congregation of St. John's Catholic church subscribes $2,000 for erection of new church at services Sunday.

—50—

Board of supervisors, composed of L. D. Young, H. C. Wells, G. R. Martin, E. T. Mann, and Gran Ross, in session this week

—50—

Dorring Camp Ground Company elects the following directors: M. A. Glenn, R. M. Parks, W. H. Harris, I. B. Ross, and H. M. Taylor.

—50—

Deposit Bank declares semi-annual dividend of 4 per cent; Farmers Bank, 3 per cent semi-annual dividend, and the Mutual Trust Company, 6 per cent annual dividend

—50—

DIED—Mrs. W. H. Johnson, 56, at her home in Paris on the 2nd.

Letters To The Editor

December 31, 1952

Please discontinue sending The Mercury at the end of the period for which my subscription has been paid.

WILL J. GREENE

CARLISLE, KY.

Dec. 28, 1952

The Carlisle Mercury:

I want to thank all of you for printing the letter to Santa Claus in your paper. You do not realize the far reaching effect that it had.

First of all Henry's Father didn't believe it would be printed, as you are approximately 1000 miles from here. Since he was 4 years old, until 1939 he lived in Canada and he wrote to Santa but never in this way.

Even the children in this village here come in to see Henry's letter to Santa Claus, they wonder why their's wasn't in the paper. So you can see why I am so grateful to you and your staff for printing it and possibly taking up another child's place. If you look in the Morgue you will find letters that I wrote, a mile long. As long as you are down there, will you also help curb my curiousity?

I have in my possession an atlas, dated 989 to 1898. In this book Pleasant Valley, Ky., used to be named Pleasant Valley Mills, Ky. Population 75. Is there anyone or any paper to verify this?

Please accept my Thanks for printing my son's letter. I do hope that each and everyone had a Merry Christmas and will have a Happy and Successful New Year.

Sincerely yours,

Mrs. Dana Chilton

College Radio Schedule

A radio program from the University of Kentucky may be heard every day except Sunday over station WHAS at 5:45 p. m. Jan. 5 and Dr. J. L. Horlacher, "Why the University of Kentucky is A Good Place to Study Home Economics," Jan. 9, Dean Elvis J. Stahr, "The University of Kentucky College of Law," and Jan. 10, Robert H. Ford, "Farm Notes."

Other programs to be heard are WHAS, Jan. 10 at 7:45 p. m. Mrs. Myra Britton, "What to Look for in Buying A Good Chair," and Dr. Adelia Weiss, "Family Ties Strengthened Through Hobbies," WAVE, Jan. 10 at 12:45 p. m., Ed Troutman, "Planning to Increase Fall and Winter Milk Production."

LIVESTOCK FACTS

Kentucky's 3.9 million head of livestock (exclusive of products) are valued at 1-3 billion dollars. But, Kentucky farmers are doing quite to aggressively promote the improvement of livestock. Only 14 counties have organized Livestock Improvement Associations. Such local associations can do much to improve quality and production methods.

Inside WASHINGTON

MARCH OF EVENTS

Presidential Assistant Job to Prove Big One

Governor Adams' Task Full of Responsibility

Special to Central Press

WASHINGTON—Gov. Sherman Adams of New Hampshire does not know himself yet exactly what his duties will be as President-elect Eisenhower's presidential assistant—but one thing is sure, it will be a major undertaking. Adams will be filling a new job in effect, one that has never existed before, and the details have not been worked out completely. He will have far more responsibility than John Sherburne, President Truman's assistant.

The New Hampshire governor is almost certain to become one of the most important members of Ike's official family. He will be on an adjacent to the President and he also will be the White House liaison man with Congress.

In addition, he will make many of the secret appointments left by the chief executive and may occasionally represent special assignments. He will be a sort of staff. He was picked for the job for two reasons: first, he has Ike's complete confidence; second, he is convinced that the job of being President is too big for one man.

Gov. Sherman Adams

● DEFENSE SPENDING—If the new Republican administration plans to do more heavy cutting in the budget by slashing military spending, it may have to argue with defense leaders. The Pentagon says that military men can't really get sharply without reducing the size of the 2,700,000-man force. So this accomplishment run into a stone wall.

The idea was that a large amount of the defense funds spent was mainly represented capital investments that would be added to the sustaining basis without any new outlays of money. However, the scientific and engineering progress in making this difficult. New developments are making old weapons and equipment obsolete and funds have to be spent to keep up with possible enemy practices.

For example, the Air Force wants to order new supersonic planes. The Navy wants more super aircraft carriers and the Army is urging its scale development of atomic artillery. Since a slowdown in research or development is considered even more dangerous than a cut in its spent. Pentagon officials have concluded that results will be in will just have to mean smaller forces.

● AIR CRASHES—The Pentagon has another worry, too. Air Force officials have become greatly concerned over the recent series of crashes involving supersonic planes.

Their concern centers on the Fairchild C-119 which was involved in two crashes in Alaska, one in Korea and another in Montana. Personally, the plane has an excellent safety record.

"The Air Force is satisfied that the plane itself is still good, but air officials are worried about the effect the accidents may have had on the morale of the men who fly the big ships.

● FOOD COSTS—If you're looking for food prices to go down, you may have a long wait. The Agriculture department predicts that they will be about the same next year that they were in 1952.

This officials predict that food supplies will be about as large as they have been in the past three years and that retail prices will remain at about the same level.

However, they predict that there will be less butter, eggs and pork for the American consumer in 1953 while more beef, veal, chicken and fresh and frozen vegetables will be available.

I asked a veteran school teacher the other day how she would go about checking up on the public schools if she were a member of the state-wide organization that is to operate under the direction of the Kentucky State Research Commission.

"I'd start inside first-grade school rooms," she said. "In other words I'd begin at the bottom, at the beginning of children's education, instead of reporting on the great need of many bigger and better buildings and of higher salaries.

"It is the kind of instruction children get, not the kind of benches they sit on, that comes first. From the first-grade rooms I would move on through the other grades and to the high schools. Every grade would call for a daily careful observation—looking and listening."

It would want to find out the truth about the so-called modern methods of teaching," she continued. "I don't have to learn about old fashioned methods. The "three Rs" and strict school discipline are as familiar to me as if they were yesterday."

I know a good many teachers in every corner of the state, and not a single one of them defends the newfangled methods of teaching and the general fuzzy thinking of pupils all through their school years. Teachers know days take orders from higher up—from principals, superintendent. And they are influenced by what is said in teachers periodicals, and what they read and hear at the Kentucky Educational Association.

Left to teach as they please, most of them would go back to old fashioned ways.

Individual teachers have to watch their steps. Perhaps there is no public calling in which people are more timid about risking call-downs for following their own intuitive reforms, therefore must come from the top.

For the deplorable condition of many Kentucky public schools today nobody is to blame but the people who have been running the schools for three or four decades. When the school people can boast of good schools the taxpayers will respond with adequate financial support.

The state-wide investigation, headed by Dr. Arthur Y. Lloyd, director of the Research Commission, can be counted on to do a thorough job. But while the work is in progress any and all intelligent discussion of the school system will help.

Your correspondent will welcome letters for or against newfangled classroom methods as compared with ways of other years. Permission to use the names of the writers will be appreciated. My address is R.I.D. 3, Henderson, Ky.

Recipe Of The Week

The heart of beef, pork, lamb and veal are all excellent foods, notes Mrs. Pearl Hauk, specialist in foods at the University of Kentucky. However, it is a less tender cut of meat, and will require long, slow cooking.

Stuffed Heart

1 beef heart
2 t. salt
¼ t. pepper
1 medium onion
1 stalk of celery
2 T. fat
2 c. soft bread crumbs
4 apples
½ c. brown sugar
8 cloves
2 bullaces
½ c. water

Wash the heart, slit and remove gristle and blood vessels. Sprinkle interior with ½ teaspoons salt. Cook chopped onion and celery in fat and add bread crumbs, remainder of salt and pepper. Fill the heart with the stuffing and sew up the slit. Brown the heart on all sides in drippings. Place in casserole, and surround with quartered, unpeeled apples. Sprinkle the latter with brown sugar, cloves and crushed bullaces. Add water, cover tightly and braise in a slow oven, 300 degrees, for at least 4 hours.

Mons: Stuffed heart, scalloped potatoes, buttered squash, grapefruit salad, rye bread, butter and peach-upside-down cake.

Grass Seedings Are Still Okay

Grass seed sowed in September will not be injured by winter freezes, even though it has not sprouted due to lack of moisture. So stated N. R. Elliott, horticulturist at the University of Kentucky College of Agriculture and Home Economics. The seed may sprout and the new grass grow under snow, he said.

If seed was not sowed in September, Mr. Elliott advised waiting until February to sow the new crop.

Stop Taking Harsh Drugs for Constipation

End Chronic Dosing! Regain Normal Regularity This All-Vegetable Way!

Taking harsh drugs for constipation can punish you brutally! Their cramps and gripping dosages normal bowel action and you feel in need of repeated dosing.

When you occasionally feel constipated, get gentle but sure relief. Take Dr. Caldwell's Senna Laxative combined as Syrup Pepsin. It's all vegetable. No salts, no harsh drugs. Dr. Caldwell's contains an extract of Senna, oldest and one of the most natural laxatives known to medicine.

Dr. Caldwell's Senna Laxative tastes good, acts mildly, brings thorough relief overnight. Helps you regain regular, ends chronic dosing. Even relieves stomach sourness that constipation often brings.

Try the new 25¢ size Dr. Caldwell's Money back if not satisfied. Mail bottle to Box 280, New York 16, N. Y.

Say You Saw It In The Mercury

MOOREFIELD

By Miss Lena Hazelrigg

Mr. and Mrs. W. G. Van Meter of Jeffersonville, Ind., spent the weekend with her parents, Mr. and Mrs. E. F. Blount.

Mr. and Mrs. Gene Becker left Friday for a two month's stay in New Mexico. Mr. Adams will teach for Mrs. Becker while she is away.

Mrs. Lillie Garrett of Carlisle entertained Bro. and Mrs. Hobgood Dec. 28. Other guests were Mrs. Neal Kerns and family and Mrs. Jeannie Markland.

Carroll Gene Robinson has been spending a few days with his parents, Mr. and Mrs. Clay Heilmon before leaving to accept a position in Canada.

Billy Terrell of the U. S. Navy left Sunday after spending a 30-day leave with his wife and parents. He was accompanied to Louisville by his wife and her father, Joe Allen Stone.

Mr. and Mrs. Dean Auxier and little son are spending a few weeks with her father, Robert Templeman. They will go to housekeeping in the Spring.

Bro. Tom Shepherd of the College of the Bible, Lexington, preached at the Christian church Sunday morning. He was dinner guest of Mrs. Addie Reid and family. Other guests were Mr. and Mrs. Herman Vice.

Mr. and Mrs. George Figg and family of Cincinnati spent Saturday night and Sunday with Mrs. Bess Romagen.

Roy and J. T. Blount are able to be out after a few days illness.

Mr. Robert Blount is ill at his home in the country.

SALTWELL

By U. G. Mattox

Mr. and Mrs. E. R. Kendall, Mrs. Lee Hollar, Myrel Hollar, Mrs. W. J. Kenney visited Mr. and Mrs. Fred Hollar and family Sunday night.

Mr. and Mrs. Russell Ritchie spent Wednesday with Mr. and Mrs. Roy E. Snapp.

Rev. and Mrs. G. W. Haley and daughter Gloria Ann and Mr. J. Wallace of Kenvir, Ky., Rev. J. W. Kenney and daughter Patty Ann spent New Years Day with Mr. and Mrs. Fred Hollar and family.

Mr. Ed Prather and two sons spent Saturday night and Sunday with Mr. and Mrs. Earl Prather and family at East Union.

Mr. and Mrs. W. W. Cook of Yankeetown, Fla., who spent the Christmas holidays with friends here returned to their home last week.

Mr. and Mrs. H. M. Endicott and little son of near Versailles spent a few days the past week with Mrs. W. H. Martin and other relatives here.

Mr. and Mrs. E. F. Earlywine, Mr and Mrs. Carl Scott and two daughters, Mr. and Mrs. Allen Greene and son, Mrs. Gladys Kenney and Bobby Gene, Elcen Fragance, Harmon Ruth Hollar, Mr. and Mrs. Lora Gaunce spent Sunday with Mr. and Mrs. Freddie Gaunce and children, the occasion being Freddie Gaunce and son Ronnie's birthdays.

Mr. and Mrs. Ernie Earlywine dined with Mr. and Mrs. Thomas Gaunce Friday night.

Rev. Croup filled his appointment here Sunday morning and evening and he and Mrs. Croup were dinner guests of Mr. and Mrs. W. S. Gaunce.

Mrs. Bertha Mort of Ithaca, N. Y., who has been spending the Christmas holidays with her daughter, Mrs. Bertrum Croup and Rev. Croup, returned to her home Friday.

Mrs. Ellar Kendall spent one day last week with Mr. and Mrs. Walter Collins and daughter.

Rev. and Mrs. Bertrum Croup, Mrs. Bertha Mort, Mrs. Gladys Kenney and son Bobby dined with Mr. Ind Mrs. Emory Asbury one night the past week.

Rev. G. C. Gaunce is assisting Rev. Milton Cutcher in a revival meeting at Sardis church near Somerset.

Rev. and Mrs. G. C. Gaunce were guests Tuesday of Mr. and Mrs. J. H. Myers at Ewing.

Mr. Emory Asbury is ill.

COLORED NOTES

By Mrs. Aurelia Hamilton

Pfc. Dennis Williams left Sunday for North Carolina after spending the holidays with his family.

Miss Catherine Mack of Chicago and Miss Gertrude Mark of Detroit, left for their homes Saturday after spending the holidays with their sister, Miss Charity Mark.

Miss Jeannette Wilson left Friday for her home in Columbus after spending the holidays with her parents, Mr. and Mrs. Shady Wilson.

Mrs. James Calvert and daughter and Mr. Walter Fisher of Cincinnati were Sunday guests of Mr. and Mrs. Floyd Washington and Mrs. Mattie Owens.

Mrs. Zella Anderson, Mr. Bender Anderson, Mr. Earl Anderson and Miss Carrie Eston of Little Rock visited their sisters Sunday, Mrs. Annie Vice and Mrs. Katie Davis.

The total number of beef cattle Jan. 1, 1953, is estimated at 55,900,000 head. This is about 10 percent more than the number reported on Jan. 1, 1952.

"The FUGAZZI School of Business has announced a 4 months training program for Secretaries and Stenographers beginning in January 1953. The course can be purchased on a budget plan for as little as $12.50 per month while in training. Among other subjects the course will include the new ABC Speedwriting Shorthand, the famous Ezmer Wheeler Human Relations and Personality Development course, and How to Write Better Business Letters. Upon satisfactory completion of the course students will be placed in jobs of their choice. Those interested in the course which will begin in January, should contact the school at 106 Esplanade, Opp. the Bus Station in Lexington, Ph 2-6033. Or a free booklet may be secured by clipping and mailing the coupon below."

Please send me your free booklet containing information about your courses. I am interested in DAY——NIGHT——classes.

World's newest V8 powers BUICK'S GREATEST CARS IN 50 GREAT YEARS

Television treat—the BUICK CIRCUS HOUR—every fourth Tuesday.

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

HERE you see pictured the Golden Anniversary ROADMASTER—engineered, styled, powered and bodied to be fully worthy of its paragon role in this Golden Year of Buick building.

A quick listing of simple facts will reveal just cause for celebration.

★ It has the world's newest V8 engine. *Vertical valves. Dyaflo electrical system. 180 pounds lighter; entire engine is so compact, a new, more maneuverable chassis has been built around it.*

★ It has 188 fire-bolt horsepower. *A new Buick record: engine horsepower per pound increased 40%.*

★ It has a compression ratio of 8.5 to 1. *Highest compression on the American scene today; bettered fuel consumption.*

★ It has a dynamic-flow muffler. *For the first time in automotive history, a muffler with zero power loss.*

★ It has a new Twin-Turbine Dynaflow Drive. *Now adds far swifter, quicker, more efficient getaway to infinite smoothness at all speed ranges.*

★ It has new braking power. *Most powerful braking action of any Buick in fifty years; plus the new ease of Power Brakes, optional at extra cost.*

★ It has a still finer ride. *The softest, steadiest, most buoyantly level ride that Buick's advanced engineering has yet produced.*

It has, also, wondrous handling ease, *with Power Steering as standard equipment on this superb creation.* It has sumptuous fabrics and tailoring. And its acoustics are so thoroughly mastered that it may well be one of the world's most quiet cars.

But no listing of facts can do true justice to this phenomenal automobile, or to its brilliant brothers, the 1953 SUPERS and SPECIALS.

And no words can really tell you the beauty you see, the comfort you feel, the excitement you experience—when you look at and drive any one of these big, beautiful, bounteous Buicks for 1953.

Will you come in and see for yourself that these are, in simple truth, Buick's greatest cars in five brilliant decades?

Equipment, accessories, trim and models are subject to change without notice.

On Display January 9th

SURVIVORS TELL OF AIR KIDNAPING

TWO OF SEVEN SURVIVORS of a nightmare experience, Mary Alice Ireton, of Bethel, Ohio, and Marshall Nunn (right), of San Francisco, are greeted in Manila by U. S. Embassy Counselor William Lacy (center). There they told the story of how a fanatical Chinese commandeered the DC-3 commercial airliner on which they had taken off from Luzon, killed two crewmen and almost landed them in Chinese Communist territory. However, a Chinese Nationalist training plane happened by and was signaled by Felix Gaston, a co-pilot, who flew plane with it on at his head. They landed in Formosa. (International Radiophoto)

Stockmen To Meet At Farm Covention

The raising of livestock will be featured in the programs of two days at the 41st annual Farm and Home Convention at the University of Kentucky in Lexington Feb. 3-6.

Cattlemen will hear about the prospects for 1953 and about breeding and feeding for best results. Speakers will include Dr. E. J. Warwick of the U. S. Department of Agriculture, Prof. Rex Beresford of Iowa State College and several Kentucky authorities.

Breeding for greater lamb production will be the subject of Prof. D. S. Bell of the Ohio Experiment Station, while dairy farmers will hear talks by Dr. R. E. Hodgson of the U. S. Department of Agriculture and Dr. N. S. Lindquist of Purdue University.

Hog-raisers will have as speakers Dr. R. F. Wilson of Ohio State University and several prominent Kentucky farmers. There will be sessions for both chicken and turkey raisers.

Other sectional meetings will deal with feed production, soil management, fruit and vegetable growing, the Rural Community and Church and agricultural engineering.

Reports will be made of research work in the University of Kentucky Experiment Station in problems confronting stockmen.

The annual banquet on the last day will be devoted to tobacco problems.

The convention will open with a general program, sectional meetings for farmers on Tuesday and Friday, and special sessions for women three days.

Don't Overlime Tobacco Ground

Warning about overliming land for tobacco is given in a University of Kentucky circular on fertilizing burley.

Where tobacco is grown in rotation, no more lime should be used than is necessary for the legumes in the rotation, it is stated. This probably means one to two tons an acre every 10 to 12 years, and should follow the tobacco crop.

Land in continuous tobacco should be moderately acid and should be limed as necessary to keep it from becoming strongly acid. This usually means a half-ton to a ton every six to eight years.

The circular, which is 490, contains complete information on fertilizing burley tobacco. Ask at a county agent's office or write to the college at Lexington for a copy.

SCOTT'S SCRAP BOOK

By R. J. SCOTT

The Carlisle Mercury, Carlisle, Ky. Thursday, Jan. 8, 1953—Page 3

Better For Meats

A warning to housewives against the use of household-weight aluminum foil when freezing meat, was made by Miss Florence Imlay, extension home economist at the University of Kentucky. The thin weight foil fails to protect meat sufficiently in freezing, allowing air to get in and moisture to get out, she said. The result is dried-out meat, or locker-burn.

A heavier kind of aluminum foil made for this particular purpose is available at locker plants, or wherever freezing supplies are sold, she said.
