CAPITAL ROUNDUP

No Rate Control

Five Louisville taxicab companies served notice of rate increases with the Department of Motor Transportation to take effect Jan. 1—but a perusal of the law, according to Department officials, does not expressly give that body control over rates charged by this type of common carrier, though it does give them control over the service. It is the first time such a notice has been filed.

Inquiry Started

State Department of Education Census Head C. T. Ward initiated an inquiry through local attendance officers to determine the whereabouts of approximately 26,400 children whose names are on the school census, for which State money is paid, and who apparently are not enrolled in any school, public or parochial.

Bridge Named

State Highway Commissioner W. P. Curlin designated the new bridge now under construction at Cumberland Falls, Whitley County, as the "Edward M. Gatliff Memorial Bridge" in honor of the late E. M. Gatliff, Williamsburg, who was a member of the old nine-man highway Commission from 1932 to 1938.

Lotteries Illegal

Assistant Attorney General Jo M. Ferguson held that lotteries are forbidden, even for charitable purposes, and that it is the duty of all peace officers to enforce the laws against gambling that may occur within their jurisdiction.

Unveiling Planned

Ceremonies have been planned in Frankfort for January 9 when a portrait of former State Treasurer John E. Buckingham is to be unveiled. It was Buckingham who conceived the idea of refinancing a $10,000,000 state debt at a lower rate of interest than the statutory five per cent rate. He succeeded in refinancing the debt at two and a half and three per cent interest. Gov. Lawrence W. Wetherby, former Gov. A. B. Chandler, John C. C. Mayo, Ashland, and James T. Norris, Ashland publisher, are on the program.

Raises Granted

General Telephone Corporation, which serves Lexington and a number of other Central and Eastern Kentucky communities with telephone service, received from the Public Service Commission two raises within a comparatively short time to cover increasing operating costs. The Commission earlier granted it a $233,562 annual raise two weeks ago, then on rehearing granted an additional $79,000 to cover an error in computing income-tax liability for the year.

The Knott county homemakers made 47 dolls to give to needy children.

In Hart county, from 40 to 50 percent of fall seeding failed to grow because of the drought.

Liver Recommended If Vitamins Needed

Housewives who are looking for a "gold mine" in vitamins and minerals need look no further than pork liver, according to Mrs. Anne Clemmons, assistant professor of home economics at the University of Kentucky.

Highest in food value of all protein foods—meats, eggs, poultry, cheese and milk—pork liver is the cheapest.

Builds Resistance To Colds

Eaten once a week, pork liver will help the body build up a resistance to colds and other infections through its unusual supply of Vitamin A. Due to it high vitamin B content, it helps prevent nervous and digestional disorders. Its excellent blood-building properties will aid in preventing nutritional anaemia.

Popular ways of preparing pork liver include French frying narrow strips dipped in batter; making the liver into a loaf with the addition of tomatoes, onion and celery, or frying it with bacon and onions.

Serve Salads All Year Round

By ALICE DENHOFF

WINTERTIME is salad time, too, and when planning your meals, both workaday and holiday, see to it that salads of various kinds have a well-defined place.

Dressings are important, and it's a smart provider who takes a good basic French dressing and works out all sorts of interesting and novel variations. Here are some ideas for salads that may help you in your planning.

Banana, cabbage and apple get together for a good salad, the recipe for it.

Combine 1½ c. shredded cabbage and 1½ c. diced, unpeeled apple. Add 4 tbsp. mayonnaise and ½ tsp. salt. Place some of mixture in a lettuce cup on each of 6 individual plates. Surround lettuce cup with fluted banana slices, made by running prongs of a fork, lengthwise down a peeled banana, then slicing crosswise.

Put a rich and nutritious concoction, try a stuffed date salad.

Rub ½ pkg. cream cheese and ½ c. peanut butter, separately, to a paste with ¼ c. cream. Stuff half of one pkg. dates with each mixture. Arrange cheese and peanut butter stuffed dates alternately in circle on lettuce nests with French dressing.

Pleasing Molded Salad

Molded salads are always welcome, not only during the warm weather. Here is one that is healthful as well as pleasing.

Soften envelope plain, unflavored gelatin in ¼ c. cold water. Add one c. boiling water, and stir until gelatin is thoroughly dissolved. Add ¼ c. sugar, tsp. lemon juice, ¼ tsp. salt, ½ c. tangerine segments and juice. Cool and when mixture begins to thicken, fold in one c. grapefruit segments cut in small pieces. Turn into individual molds. Chill. Unmold on lettuce leaves.
