Nicholas' Share Of Federal Taxes Over Two Million

Nicholas county taxpayers will be required to pay out approximately $2,227,944.45 in Federal taxes as their share of the Federal spending program of $78,600,000,000 proposed by President Truman for the fiscal year 1953-54. The Kentucky Chamber of Commerce released these figures today after an analysis of the President's budget recommendations which were recently submitted to Congress.

Kentucky's 120 counties must bear the staggering load of $825,163,000 as the State's share in the President's proposed spending program. This share for Kentucky is based on the fact that Kentucky now bears 1.05 per cent of the total Federal tax burden.

The Kentucky Chamber's estimate of $2,227,944.45 as Nicholas county's share of the proposed new budget is based on the proportionate share each county in Kentucky bears of State income taxes, ratio of county sales to State sales, and other factors.
