### A HOME "SAVINGS BANK" FOR FOOD

It's a wonderful feeling to be putting food in your freezer for future use. Just like building up a cash reserve in the bank—always there when you need it. It's called GOOD EATING for your family the year around—plenty of nutritious foods for daily needs—and even out-of-season delicacies for special occasions. But, of course the biggest story behind an electric freezer is the ECONOMY—buying foods in quantity when they are at their lowest price—or growing and storing your own.
