Astronomers Seeking Right Answer To How Big, Old Is The Universe

How old is the universe? How discovery of the most far-reaching light has such questions as answer: correct much ever made. Measure-ment of distance from earth to stars in billions of light years. Astronomers are following former estimates following from outside the earth's own gal-

axy to be taken at far away, red, red, and night time. In 1920, Walter Baade of the California Institute of Technology, Mount Wilson and Palomar Observatories has opened a new perspective on the whole of creation. The National Geographic Society says: What do his measurements mean?

Two-Billion-Year Journey From this history-making map of the universe, astronomers expect to find new clues to how matter is distributed in the heavens, how it behaves in space we can reach, and how it presumably acts in unknown space beyond.

Seven entries of the 200-inch telescope in the Milky Way that is measuring distances out in space, are now as big as had been supposed. Thus our galaxy, instead of being an unshapely point, is a disk of about three billion years in diameter.

Distasteful, believed by the theory of the expanding universe, is to be making away from a common center at present positions, have taken twice as long to reach their present positions. Thus the universe is twice as old as our galaxy, instead of being an unshapely point, is a disk of about three billion years in diameter.

Barstow Host To Flower Show

Barstow will be host again this year to the third annual exhibition of the Kentucky Garden Society. The show, expected to be larger and more colorful than ever, is scheduled for Saturday and Sunday, July 11-12, at Barstow High School.

Members of the society, now numbering over 100, are expected to participate by bringing plants to be shown by the opening day, June 30. All members of the church and Sunday School are invited to bring a covered dish and enjoy the fellowship together.

More than 2,000 people are expected to be at the show on the public free Saturday afternoon and Sunday. The show will be held at the Barstow High School. The show will be held at the Barstow High School.

MR. BLANTON Some weeks ago you were asked publicly by one of your constituents how you stood on issues affecting private interests you represent. These raised grave doubt as to your freedom to represent in the legislature the best interests of the people of Bourbon and Nicholas counties.
