CHRISTIAN SCIENCE

Man does not lose his identity but extends the atmosphere of his thought and action by forsaking matter for spirit. This will be brought out in all Christian Science church services next Sunday. The subject is "Man."
"The following passage will be read from the Bible: "So God created man in His own image, in the image of God created he him; male and female created He them." (Genesis 1: 27).
Selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "The Scriptures inform us that man is made in the image and likeness of God. Matter is not that likeness. The likeness of Spirit cannot be so unlike Spirit." (p. 475).
The Golden Text is taken from Psalms 16:4, 4, 12): "Blessed are they that dwell in thy house: they will be still praising thee. ..O Lord of hosts, blessed is the man that trusteth in Thee."

Jesus Urges Alertness (Temperance)

HE WARNS CHRISTIANS TO BE READY AT ALL TIMES

Scripture—Matthew 24: 1—25: 13; Romans 13: 11-14.

By NEWMAN CAMPBELL

JESUS THE PROPHET speaks to us in this lesson, the prophecy delivered on Tuesday of the week before the destruction of the temple, which occurred 40 years after the Lord's death on the cross.

As we study the lesson let's decide ways to show Him the honor of His name.

And because it's Easter time, for we say unto you, there shall not be left here one stone upon another that shall not be thrown down.

Then as He sat on the Mount of Olives, His disciples came to Him and said, Tell us, when shall these things be? and what shall be the sign of thy coming, and of the end of the world?

Many people in later years have been sure that they knew just when this was to come about and devoted followers have assembled on hilltops and quit working to greet the end and welcome the second coming.

Always the prophecies have failed, as we are well aware. The world has seen many crises in its history seemingly pointing to the conditions described in our lesson, but it is not yet and no man can foretell the time of its coming.

Jesus first warned them that they should not allow themselves to be deceived by false men. "For many shall come in my name, saying, I am Christ, and shall deceive many." Verse 5.

Wars and rumors of wars would come, but He told them not to be troubled. "But the end is not yet."

Nations would rise against nations, and kingdom against kingdom, and there would be famine and pestilence, and the disciples would be afflicted and killed.

"But of that day and hour knoweth no man, no, not the angels in heaven, but My Father only."

Christ warned them, therefore, to always be ready, for "Blessed is that servant, whom his Lord when He cometh shall find a doing so."

If the servant should say, "My lord delayeth his coming; and shall begin to smite his fellow servants, and to eat and drink with the drunken, the lord of that servant shall come in a day when he looketh not for him, and in an hour that he is not aware of," and he "shall cut him asunder, and

One Great Hour of Sharing

By His deeds, by His teachings, by His death upon the Cross, Christ demonstrated the duty and responsibility of Christians to share with their less fortunate fellowmen.

Today as we read our newspapers and listen to our radios, we sometimes tend to disregard the need and suffering in other parts of the world. Momentarily we may feel sorry, but it passes quickly as we return our thoughts to personal affairs.

To help us become more aware of our opportunity and responsibility for helping others, there has been instituted "One Great Hour of Sharing," a united effort by America's churches to assist overseas relief. Next Sunday tens of thousands of churches will simultaneously cooperate in this great plan at their Sabbath services.

Through "One Great Hour of Sharing" millions of destitute peoples will be aided and comforted. Millions will learn that because of the unselfish and understanding heart of America, there is for them hope of a brighter tomorrow.

And to America, "One Great Hour of Sharing" will bring the priceless blessing of spiritual enrichment that rewards those who have obeyed these words: "Go ye into all the world . . . to every creature."

Won't you go to your Church on Sunday, and join this great effort?

The meeting was called to order by the president, Kay Irvin. We then stood and repeated the 4-H pledge. The song leaders, Ruth Wilson and Diana Ratliff, led us in the songs "I'm Looking Over A 4-H Clover", "Oh, Them Golden Slippers", and "Tell Me Why".
The president then turned the meeting over to the secretary and treasurer, Martha Darnell, who called the roll and had us answer with the name of our projects. She read the minutes which were approved.
The president then turned the meeting over to the vice president, Ruth Wilson. She had the program "Better To Be Safe Than Sorry." The program was as follows: Right Thinking About Taking Chances", Nancy Lyons; "Traffic Safety," Ann Garrett," "Home Safety", Rose Scott; "Friend Or Foe", Linda Ray and Bessie Garrett; "There Is A National Safety Contest", James Mitchell; "Minor Accidents And Personal Care", Frances Willoughby.
Mr. Straw gave a talk on electrical demonstrations and farm and home electrical equipment.
Mrs. Kash then presented a movie on electrical water supply.

farm facts
FOR KENTUCKY FOLKS
by Wm. C. Johnstone
AGRICULTURAL REPRESENTATIVE
KENTUCKY BANKERS ASSOCIATION

Corn Facts—Corn planting time is just around the corner and it's not to early to start preparations for corn yields in 1953. Yields of 75 to 100 bushels are becoming common in Kentucky, and we should look forward to average state yields of 50 bushels in the near future. The highest average state yield to date was 41 bushels in 1948.
Higher yields will come from better land use—keeping corn on more level land; testing soil and using an abundance of needed plant food, planting to get 10 to 12 thousand plants per acre; side dressing with nitrogen and controlling weeds.
Kentucky-produced certified hybrid seed corn is still the best kind to plant. Ky. 103 to US 13 are the best yellow hybrids and Ky. 201 to US 523W are tops in white kinds.
Some folks still burn corn stalks, and probably don't realize that as much nitrogen is lost by burning one ton of stalks as is contained in 15 to 18 bushels of corn.
Erosion on an average Kentucky hillside is estimated to cause 22 times more loss of soil nutrients than is removed by a crop of corn. Often, growing corn crops themselves are not used, each bushel of corn costs a ton of soil. Good tour cultivation not only reduces erosion but it increases yield.
Pasture Facts—Two weeks grazing of wheat and barley, and a longer period for rye, when the crop is 5 or 6 inches high, often saves the young grass and legume seedings. And my, what it means to the livestock? Young small grain is very high in protein—as high as alfalfa or clover.
Many are ill in this community.
