Presenting the New 1933 Studebaker

The new American car with the European look!

It's almost unbelievably low! It's impressively long and wide! It has the sleek-lined smartness of a costly foreign car and it's right down to earth in price!

The completely new, sensationally different 1933 Studebaker unquestionably is the most daring step forward of our times in automobile design.

Here, first by far in an American car, is the continental charm of Europe's most distinguished cars—an impressively long new Studebaker that is in a very low most people can see over the top!

Come in and find out about the exciting new 1933 Studebaker—franchise in years and fair—brash—taking in luxury loads as well as outside. That car has been down to earth in price it really is.

A brand new type of Power Steering

A new and safer low center of gravity

Helps new engines of safety glass all around

1933 Studebaker Standard back-seat overhauling! Truly a new light into the future!
