What Do You Think?

Do you think the American people would vote to spend more than $300,000,000 of their tax money on a project which could be financed and built with private funds under the private enterprise system—and which, once in operation, would become a large taxpayer instead of tax-consumer? It hardly seems likely. But that's just what one clique in government wants to do at Niagara Falls.

As a result of modifications in a Canadian-American treaty, a huge amount of additional water is available at the falls for hydroelectric development. The sole question—which must be decided by Congress—is whether government will do the job with our tax money, or whether a group of business-managed utilities, which are all ready to go ahead, will be permitted to do it with private capital. The issue isn't complicated by flood control or navigation. The project will produce electric power and nothing else.

Identical bills have been introduced in House and Senate whose stated purpose is to preserve the scenic beauty of Niagara Falls; to further the national security; and to assure the development of low cost electricity under the private enterprise system. They should be passed without delay.

Heavy Obligation

In a recent speech, J. C. Penney, head of the chain store system which bears his name, said: "In a free nation, where the individual is of first importance, that importance carries with it a heavy obligation. He must be worthy of the trust, by being a responsible citizen, by dealing reasonably and fairly with his fellow men. The free choices he makes cannot be jungle choices—they must be based upon the Golden Rule. He must do unto others as he expects to be dealt with by them. This is a stern discipline, but on it depends his survival as a free human being. And on him and his fellow Americans ultimately depends the survival of this country. Every man who fails, even in little things, may be responsible for the loss, to every man, woman and child in it, of the priceless gift of liberty."

Freedom is not a right. It must be earned, nourished, protected. Whether we shall have it or lose it will depend on our character as a nation—which is simply the sum total of our characters as individuals.

FEBRUARY BIRD WATCHER

KENTUCKY ON THE MARCH

By Leroy Gilbreath

In criminal courts there is a principal as old as Blackstone—maybe Caesar put into his commentaries two thousand years ago—that it is better to have one hundred guilty persons escape punishment than convict one innocent man or woman. Caesar anticipated cases like that of Leonard Hankins, Dawson Springs, Ky., who served 19 years in a Mississippi penitentiary for a robbery he did not commit.

All the newspaper-reading public feels deep sympathy for Hankins and as I write this editorial there seems to be a chance the Minnesota state government will give him some compensation. In Kentucky and probably 40 out of the 47 other states, there is no statutory provision for compensating innocent people who have been imprisoned in state penitentiaries. An appeal to the legislature would be the only hope of getting compensation for a wrong that could not be figured in dollars and cents, and such an appeal would almost inevitably result in our lump appropriation, which in four cases out of five the unjustly-imprisoned persons would fritter the money away in a short time.

A lifetime pension would be the best compensation. The victim's pension could be determined by the Kentucky parole board, which might work from a minimum of $200 a month to a maximum of $300, the amount being governed by the manner of living the beneficiary was used to before his false conviction.

Sympathy in such cases is not enough, and I am sure the next General Assembly would pass an enabling law if some member would introduce a bill and follow it through the committee in charge of it and onto the floors of both houses.

We are paying pensions now to all kinds of people who make claims to the state—many of them phonies. If a falsely imprisoned person doesn't deserve compensation in the form of a pension, who does? So far as I know, no state has such a law, and Kentucky could adopt one that could be a pattern for other states. The need of such a statute is obvious. There is no excuse for refusing to enact it.

If there were three cases in twenty years, the pensions would be next to nothing. Performing a Christian duty to persons gravely wronged would be something every Kentuckian would feel proud of.

(Syndicated by The Union County Advocate)

Mr. and Mrs. G. C. Grover, Carlisle, purchased an 118-acre farm located on the Scrub Grass road, Saturday, from Dr. B. S. Pritinger, Paris. Price was not disclosed. Immediate possession was given. Sale was handled by Cleora Eightmeier, local realtor.

Blades Of Bluegrass

By Boyd Keenan

Lexington, Ky.—Season is in for Sunday afternoon motoring—chief weekend pastime of many Kentuckians during the Spring months. State police and local officers throughout the state already have reported that weekend travel is clogging many Kentucky highways.

From Pike to Fulton county, Kentuckians are going places, seeing new towns, and moving through neighboring counties. And, usually without being conscious of it, they size up every town through which they pass.

Why is it that some communities leave a good impression with us when we drive through them, while other towns remain merely a dot on our road maps? Is it the well-kept lawns, wide streets, impressive public buildings, modern stores, and clean factories we notice in certain towns and miss in others?

Such improvements surely are part of the attractiveness of a town, but are they all that count? At least one community life expert in Kentucky says no!

He is Dr. Irwin T. Sanders, professor of sociology at the University of Kentucky and director of the UK Bureau of Community Service. In a revised edition of his book, "Making Good Communities Better," just published by the UK Press, the community life specialist declares that "a stable economy is not the only major trait of 'goodness of life' in a community." Dr. Sanders suggests in his newly-revised book that "the goodness of life in a city is explainable only in part (about one-fourth) by wealth and income."

Which Kentucky towns have established themselves in your mind's eye? Are they those filled with expansive unused lawns . . . or are they those which have an abundance of yards "marred" by makeshift basketball courts, miniature baseball diamonds, bicycle ruts, or hopscotch diagrams?

Remember, the experts say that wealth and income alone can't be trusted to measure "goodness of life" in a community.

RUPTURE

Expert Coming To Flemingsburg & Maysville Again

GEO. L. HOWE

Well-known expert of Indianapolis will personally demonstrate his method without charge at the Fleming Hotel, Flemingsburg, Saturday, March 28th from 9 A. M. to 12 noon and at the Central Hotel, Maysville from 2 P. M. to 6 P. M. Everything by appointment. Ask for Mr. Howe at desk.

Mr. Howe says the Howe method contracts the openings in remarkably short time on the average case, regardless of the size or location of the rupture and no matter how much you lift or strain and puts you back to work the same day as efficient as before you were ruptured.

The Howe Rupture Shield has no leg strap, waterproof, sanitary, practically indestructible and can be worn while bathing. Each shield is skillfully molded and fitted to the parts under heat which gives a perfect fit and satisfaction.

Large and difficult ruptures following operations especially solicited.

Do not overlook this opportunity if you want gratifying results. Mailing address P. O. Box 5233 E. Michigan St. Station, Indianapolis 1, Ind.

H'q Homemakers

The regular monthly meeting of the Headquarters homemakers was held Tuesday, March 3 at the home of Mrs. Lawrence Rankin at Moreing Glory.

Nine members and two visitors, Mrs. Eugene Neal and Mrs. John Myers, were present. Mrs. Myers joined the club.

Mrs. Rankin served a delicious salad and dessert along with our packed lunch.

Mrs. John Holland, and Mrs. Reynolds Allison gave the lesson on hat making, with seven members taking part.

The business session was in charge of Mrs. Darrell, president. The program was in charge of Mrs. John Simth. The place of the next meeting will be announced later.

Miranda Homemakers

Mrs. O. R. Cannon

The Miranda Homemakers met at the home of Mrs. Joe A. Stone March 11.

Seventeen members, one child and Miss Emma Barnes were present.

The meeting was called to order by the president and the devotional was given by Mrs. W. B. Claypool.

Minutes of the last meeting were read by Mrs. Rigg. The lesson on making hats was well given by Mrs. James Lowe.

In the afternoon Mrs. Edgar Scott and Mrs. James Lowe, assisted by Miss Barnes, helped us cut and fit our material on our hat frames. Recreation was in charge of Mrs. John Clay.

Our next meeting will be April 14 at the home of Mrs. Ollie Cannon, with Mrs. Willie Stone cohostess. At this meeting we will complete and trim our hats.

Moorefield Homemakers

The Moorefield Homemakers club held its regular meeting Tuesday evening, March 10 in the home of Mrs. Mildred Seamands with Mrs. Frank Weaver as co-hostess.

Our president, Mrs. Ward Ecton, called the meeting to order and asked for the roll call. There were 19 members responding, one visitor and our agent, Miss Barnes.

A nominating committee was appointed to select new officers and some projects for the new year were also discussed.

The lesson on Hat Making was given by the leaders, Mrs. Hanson Ellington and Mrs. Walter Bradley. This proved most interesting and instructive. The members enjoyed working on the hat frames.

The next meeting will be on April 14 in the home of Mrs. Fithian Rye with Mrs. James E. Reid as co-hostess.
