Social Security Tax To Increase

The social security tax rate for persons whose work counts toward old-age and survivors insurance is scheduled to increase on the first of January, R. A. Tweedy, manager of the Lexington social security office, reminded employers, employees, and self-employed people today.

The scheduled increase in tax contribution is in accordance with the 1950 amendments to the social security law, and was enacted by the Congress in anticipation of future obligations of the program.

Employees in jobs covered by the law will have 2 percent instead of the present 1½ percent deducted from their pay beginning with the first of January up to earnings of $3600 a year; their employers will contribute an equal amount.

The new rates will apply to all such taxable wages paid after January 31, 1953, regardless of when earned.

The social security tax for the self-employed is scheduled to increase from the present 2¼ percent to 3 percent, for the period commencing January 1, 1954. Since the self-employed whose work is covered by the law pay their tax just once yearly at the time of filing their Federal income tax return, they will pay the present 2¼ percent social security tax on their 1953 income that counts toward social security. This will be due not later than March 15, 1954. Their first payments at the increased rate of 3 percent will be due March 15, 1955, for the calendar year 1954.

In the meantime the Internal Revenue Service reports that employers will be furnished late this year with income tax withholding tables and Federal Insurance Contributions Act. (social security taxes) tables reflecting rates applicable next year.

The next scheduled increase, six years from now, in 1960, will be to 2½ percent each for employer and employee, and to 3¼ percent for the self-employed.

Buy Christmas Seals To Fight Tuberculosis

"Use Christmas Seals on all your letters, cards and packages and help wipe out tuberculosis," urges Dr. E. R. Gernert, President of the Kentucky Tuberculosis Association.

This year's Seal, which features the face of a singing child, should help bring the warm Christmas spirit into every home it reaches," Dr. Gernert pointed out.

He added that persons who do not buy Seals should use them anyway. "We do not want the Seals returned," he said "By using them, you can help spread the message of better tuberculosis control."

LOOSES LIFE AS CAR RAMS EMBANKMENT—The above is graphic testimony of the power envolved in the fatal crash of this car. Inset at lower left shows rock bank against which Frank T. Asbury was hurled presumably through the right door. The bank is on the opposite side of the road. In the immediate foreground is shown the bumper which Sheriff John Clinkenbeard retrieved from a distance estimated at 40 feet beyond where the car stopped.—TCM photo
