BUNTIN'S GARAGE

Citizens of Carlisle

Having a keen desire to see Carlisle grow and prosper, and to see its sons and daughters have enough opportunity to stay at home and not have to seek employment elsewhere, we the committee improve for the betterment of everyone, we, of the Progressive Ticket, have announced our intention to run for Mayor and City Council of Carlisle.

Thus, at this time, we would like to tell you a few facts about our intentions, if elected. First—we hope to initiate a series of improvements that will in time improve our city to one that we can be very proud of. Second—we hope by our improvements that we can, in the near future, possibly secure a factory here for the employment of male labor. Third—it is our expressed intention to set up a regular system of pickup and disposal of trash and garbage, thereby relieving the housewife of a needless bother, and thus improving the health and sanitation of the entire city. Fourth—as are all property owners, we do not in any way intend to go over our heads in financing various projects that would increase taxes. We are opposed to ANY tax increase. Fifth—we intend to give you the water service for the tax money you now pay. Sixth—we hope to improve our water supply. Seventh—we intend to better our sewage disposal. Eighth—we feel that by spending some money we can make money for the City of Carlisle. We intend to give our utmost time and careful attention to any project that may come before us.

If elected, we want any one person or persons that have any problems or suggestions to bring them before us and in a free and open discussion we will attempt to solve them. We promise to give our utmost attention to your problems, as, after all, it is you who we will be working for. If you think that we are capable of handling your civic business in a progressive manner, we are asking you to cast your vote for us in the November General Election on Tuesday, November 3.
