Kentucky Inspection Bureau
Louisville 2, Ky. G. H. Parker, Manager

Dear Mr. Talbert:
CARRLISE, KENTUCKY
RESPONSE OF FIRE DEPARTMENT TO COUNTY FIRES

We have been informed by a source which we believe reliable that the fire department responds regularly to all calls of fire in the county.

In view of the fact that the City of Carlisle has only one fire truck, and if this is sent to fires in the county, it leaves the city unprotected.

In view of the situation we must request that this practice be discontinued and the fire truck kept within the city limits ready to respond to all calls within that area.

Thanking you for your cooperation in this matter, we are Yours very truly, G. H. PARKER MANAGER

'Bear' Facts-
By PAUL BRANT
We found BEAR

A few of the football players who had been recommended by County Superintendent George DeWalt in the absence of a showing that the two persons were unqualified to train. A dispute had grown out of the fact that the superintendent refused to recommend two persons suggested by DeWalt.

It might be well to set the record straight before the 1953 convention actually gets underway about the time this appears in print. After our second week of season practice and one game, length schedule, the showing of the squad was very little to change my mind. But if certainty would after the squad of which these men are members, I am sure.

Kentucky is going to be an overextended team — very likely by the present club in the conference. But if the boys should win back hard and get willing to "pay the price," they are going to win on late September. The season most people think.

Now that sounds exactly like "darkhorse" talk. I realize, that any thought of the Wildcats in the same class as those in unaffiliated this year. The fact of the matter is that we just don't have enough horses. We do have some capital football players, but there are too many problems to hand for them to make enough difference in our outlook.

We very frankly are building for the future and it is a deplorable tribute to their parents that a great many fine Kentucky boys are figuring prominently in this.

The limit of our success this year will be directly dependent upon how hard our youngsters will work. I think the team wants victory, and this spirit and morale to be better than we have had since 1935. Thus, my advice to our followers on the eve of the season opening is to get on top on this ball club if it gets off to a slow start.
