DISTRICT PTA OFFICERS INSTALLED—New officers of the Seventh district, Kentucky Congress of Parents and Teachers, were installed yesterday at a meeting of the Jennie Rogers Elementary school at Danville. From left to right, Mrs. Charles C. Johnson of Carlisle, vice president; Mrs. D. H. Spowart of Lexington, president; Mrs. James G. Sheehan of Danville, president of the state organization and the installing officer; Mrs. William G. Rep. Clay Lists Legislative Acts

Among the acts sponsored by Cannon M. Clay, either alone or in conjunction with other representatives, which the legislature passed are the following:

H. B. 31: To give the veterans of the Korean conflict the same right of reinstatement in State jobs as the veterans of World War II.

H. B. 90: To allow the Agricultural Experiment Station to acquire and operate experimental farms in the different soil belt regions.

H. B. 108: To remove the $20,000 limitation on life insurance benefits which may be paid tax free to a designated beneficiary.

H. B. 166: To require the inspection of scales and bonding of persons who sell subject to Federal inspection.

H. B. 221: To establish a retirement system for circuit judges.

H. B. 43: Which was the same as S. B. 2. To permit a married woman to contract to act as surety for another person, including her husband.

In addition Mr. Clay introduced: H. B. 142: To appropriate funds to the Agricultural Experiment Station to carry on research in the quality characteristics, including moisture content of tobacco, so as to prevent discrimination by buyers against Kentucky grown tobacco. This passed the House 85 to 2, but failed to get through the Senate.

H. B. 252: To amend Section 93 of the Constitution to provide for a fixed salary for prosecuting attorneys and to eliminate their share of the fees obtained upon convictions. Passed in the House 76 to 2. The Senate failed to take action on it.

The legislature has directed the Legislative Research Commission to make fact-finding studies of far-reaching importance on a number of subjects, for the benefit of the next regular session.

H. R. 18: Introduced by Mr. Clay, requires it to make a study of the functioning of the legislature itself, to determine whether changes are needed in the length and frequency of the sessions in the committee system and in the rules under which the legislature operates.

H. R. 33, which in its amended form is a combination with H. R. 34, introduced by Mr. Clay, required a study to be made of the tax structure of the State, as compared with other states, and the Commission recommendations for a sounder and improved tax structure.

S. R. 42, which was the same as H. R. 50, introduced in the House by Representative Clay, directs the Commission to study how the existing laws as to the condemnation of diseased livestock, need to be overhauled.

Of interest to Nicholas County, because of the Blue Licks battlefield is a resolution passed by the legislature memorializing Congress to appropriate monies needed to include Boonesborough and other sites connected with the life of Daniel Boone in the proposed Pioneer National Monument, to be administered by the National Park Service. In sponsoring this resolution (H. R. 35) Mr. Clay was joined by the Representatives from the various counties in which the historic sites are located.

Conspicuous among the bills which Mr. Clay voted for were all the measures for the improvement of the public schools and the teachers retirement system. He was active in getting incorporated in the "dog law" the provisions which the sheep men needed and in reducing the tax on tobacco in storage. Among the bills which he actively opposed are those to allow increased pay to the legislators themselves and various high state officials, the substitution of a 3% sales tax for the existing State income tax and the increase in State tax on cigarettes.
