## The Garden

By John S. Gardner, University of Kentucky, Soil Fertility  
The complaint of gardeners who say that their vegetable crops are not getting started so early as in the past is not entirely unfounded. Whether or not the spring rains have been unusually early or late, the soil in many areas is not as fertile as it was some years ago.

## Tid Bits Of Kentucky Folklore

By Dr. Gordon Wilson  
The setting down of folkloric material can be hastened by plowing under a field in a shallow furrow, not a half inch deep. The soil is then worked over and a half inch of seedbed, packed down with a roller or heavy roller, and the seeds are sown. The soil is then worked over and a half inch of seedbed, packed down with a roller or heavy roller, and the seeds are sown.
