This is it. Dead-sure control of Tobacco Hornworm endrin

Now Shell Chemical's powerful new insecticide, endrin, is available for hornworm control.

HERE AT LAST is an insecticide that gives a really reliable control of hornworm on tobacco. It has passed every test in experimental plots and in actual field application and has proved to be the first thoroughly successful control of this major pest. Endrin is equally effective against bodworms, fire beetles and grasshoppers.

Endrin is easy to use in high or low volume sprayers and conventional dusters. A little endrin goes a long way... one acre of hornworm control requires only a quarter pound of actual endrin. Used as directed, endrin does not affect tobacco flavor.

Endrin is available at your insecticide dealer's place your order now. Apply endrin with confidence at the first sign of hornworms, bodworms, the beetles or grasshoppers.

ENDRIN IS TOPS FOR WEEVIL AND BOLLWORM CONTROL ON COTTON TOO.
