NOW! 5 Ford engines offer mightiest concentration of power per cubic

inch ever in any truck line! V-8 and SIX!

or the power they develop, the engines in the 1954

rord truck the nave less cube inch displacement than engines in other-make lines. For example, Ford's 23 cu. in. Poser King V-8 develops its 130 h.p. on as much as 43 cu. in. less displacement. Smaller-displacement engines normally need less gast That's on pig reason why Ford concentrated power offers greater economy!

CARLISLE, KY.

THE instant you see these 1954 Buicks, you'll know that something sensational has happened in automobile styling.

Here is vastly more than the dsual model changeover. Here is vastly more than could be done just by warming over what Buick had before. Here is something accomplished by going far beyond artful face-lifting. Here is that rarity of rarities-a completely new line of automobiles.

But Buick didn't stop with the bolder, Dut Buck didn't stop with the holder, fresher, swifter-lined beauty you see in raised and lengthened fender sweep—in the huge and back-swept expanse of windshield —in the lowered roofline—in the host more glamor features of exterior modernity. They upped all horsepowers to the highest in Buick history.

They engineered a new V8 for the SPECIAL - and in the process came up with new Power-Head Pistons that boost gasoline mileage in every engine. the beautiful buy

They brought to market a sparkling new-Century — a car with phenomenal horse-power for its weight and price — a car with more pure thrill per dollar than any Buick

And they did all this without change of the price structure which, for years, has made Buick the most popular car at its price in

We invite you to come in and inspect these great beauties, these great performers, these great buys. Then you'll see why the Detroit previewers are already saying, "Buick's the beautiful buy!"

ON DISPLAY JAN. 8
