—and only \$2278.14\* buys it!

HAVE you been thinking you can't afford a new Buick? Listen: If you can afford any new car, you can afford a Buick—and we hold you our price here to prove it.

Look again, and you'll see that this is the local delivered price of the new Buick SPECIAL 2-door, 6-passenger Sedan. Compare, and you'll learn that this price is just a few dollars away from those of the so-called "low-price three."

But—dig a little deeper if you want the real clincher. That's when you find that those few dollars more you pay for a Buick buy you a lot more automobile.

They buy a whole of a lot more power—Buick V8 power—plus the new economy of Power-Head combustion.

They buy a lot more luxury and comfort and solidity—more room, more glass area, more frame strength, more tread width, more ride steadiness—including the million dollar "feel" of all-coil springing and torque-tube stability.

They buy, too, the most advanced styling of the times, and the great panoramic windshield, and the surety that such freedom of movement will stay in the style parade for seasons to come. (That means a better deal for you come resale time.)

It is any wonder, then, that Buick now outells all other cars in America except two of the so-called "low-price three"? Come in for a demonstration—this week, for sure. And learn, in the doing, what a big trade-in allowance our volume sales can bring you.
