

The Carlisle Mercury

ESTABLISHED 1847

Printed and Published Every Thursday at Carlisle, Kentucky

Entered as second class under the post office at Carlisle, Kentucky, under date of March 1, 1915.

WARREN R. FISHER JR., Editor-Publisher

SUBSCRIPTION RATES PER YEAR
- \$2.50 per year, \$1.50 for six months

County Needs Fire Protection

We agree with the fiscal court of late March that \$15,000 for a fully equipped fire truck is a lot of money—maybe more than the county could afford.

INTERNATIONAL FALLS MINN. DAILY JOURNAL

"In view of the fact that the city of Carlisle has only one fire truck, and if this is sent to fire to the county, it leaves the city unprotected."

TOWN JOURNAL MAGAZINE

"The Carlisle Mercury is a fine newspaper. It is one of the best in the county. It is well written and well edited."

GREAT FALLS, MONTANA, LEADER

"For nearly 40 years, Sweden has had a reputation for good work. It is a fine newspaper. It is well written and well edited."

CONTRACTORS FINISH FLEMINGSBURG ROAD; Scott Starts Construction Of Fire Cisterns

Robert was rendered unconscious by the bolt and was brought to the Johnson Memorial hospital by his father and given treatment. Everett was knocked down by the bolt but not injured.

TO THE DEMOCRATS OF THE SIXTH CONGRESSIONAL DISTRICT

Duties of the current Congressional Session in Washington will be most important to you personally during the period between now and the Democratic Primary, August 7.

JOHN WATTS

YOUR REPRESENTATIVE IN CONGRESS

Letters to the Editor

Editor of Mercury: Notice Camp excellent article in the "Organ Grinder" which was published in your issue of July 22nd. It is a very good article and I am sure you will find it very interesting.

The Garden

Two insects that bother winter tubers are the Colorado potato beetle and the Colorado potato beetle. Both of these insects are very common and they can do a great deal of damage to your garden.

Blades of Bluegrass

Withered and yellowed plants, stunted tobacco, corn blades cut from drought in the heart of Kentucky's fine farming areas are building up interest in irrigation in Kentucky. Every farmer knows that weather often has the final say in determining his success. Many farmers are making up their minds to do something about the weather—no longer to wait for rain to be their savior.

Supplemental Irrigation

It is in case of drought, supplemental irrigation is essential. It is a very important part of any farmer's plan. It can make the difference between a crop that is lost and a crop that is saved.

Modern equipment treated with certain common sense rules

Modern equipment treated with certain common sense rules in its use, most always observed, will save the farmer a great deal of money. It is a very important part of any farmer's plan. It can make the difference between a crop that is lost and a crop that is saved.

Observe Rules In Handling Equipment

Modern equipment treated with certain common sense rules in its use, most always observed, will save the farmer a great deal of money. It is a very important part of any farmer's plan. It can make the difference between a crop that is lost and a crop that is saved.

TV TELEBOOK

To the average viewer, television is as simple as turning a knob. However, the efforts of the studios to get a big show on the air are more complicated than a head-winded woman's plan.

Along with the directors and producer the average behind-the-scenes crew is likely to number a trio of cameramen, electricians and assistants.

Along with the directors and producer the average behind-the-scenes crew is likely to number a trio of cameramen, electricians and assistants. They are the men who make the show run smoothly and efficiently.

Incidentally, if you happen to be a fan of "The Tonight Show" you will be interested to know that the show will answer any request which is made during the summer months.

Incidentally, if you happen to be a fan of "The Tonight Show" you will be interested to know that the show will answer any request which is made during the summer months. It is a very important part of any fan's plan.

Keep Shoes Watered

Keep young shade trees watered during the summer months. It is a very important part of any farmer's plan. It can make the difference between a tree that is lost and a tree that is saved.

county visited Rev. and Mrs. G. C. Gause during the week.

The revival meeting at Rose Hill will continue throughout the week. Rev. Alex Krenzer is pastor and Rev. G. C. Gause evangelist. Mrs. Meta Heller spent the past week with Mr. and Mrs. Grant Early.
